# **NEW MUSTANG BUILD ORDER**

## **STAGE THREE NEW BUILDS**

It is Valor's objective to build new Mustangs that as closely as possible resemble the Shelby products under Carroll Shelby licensing and that would be accepted in the Shelby registry. While this is not a reality at the moment, our intentions are to be a part of the movement associated with the most exciting breed of Mustang, or muscle car for that matter, of all time: Shelby GT/CS, GT-350 and GT500 series replica new builds.

## **PRICING**

The pricing will be determined based on the same costs models as Stage One and Stage Two New Builds, but with the cost of licensing with Shelby America contemplated in the build price.
