

# Jake

Jake was rescued with Bart and has acted as his "papaw" due to Bart's mother's death as a foal. He was around 26 when rescued in the spring of 2014. Jake is 80% blind though you would never know it by watching him! He loves being loved on - especially by the girls. He also likes roaming around free to do his own thing. He runs WIDE OPEN or hardly moving. He corrects Bart when he doesn't like what he is doing, loves to "loungue" Bart and, as you can see from the photo of the two on the web page, he loves to "horse play"!

One of Jake's best friends is Silver. He appears to be his "mini-me" but that doesn't stop him from holding Silver by the halter and biting his legs under the fence. Jake is no doubt a happy little pony with a draft horse attitude!
