Notice of Service for Spiders

Your unit will be treated on: _____

Good preparation is necessary to ensure good results.

Please prepare by following these directions

1. Pick up items on floor near the wall, and move any delicate items in areas of that need to be sprayed for spiders.
2. If spiders are in cabinets, remove everything so the cabinet can be sprayed.
3. Communicate with technician, explaining where spider and other insect activity is seen. If unit is being treated for cockroaches at the same time follow the guide for cockroach preparation.
4. Be prepared to leave unit for a length of time necessary for the spray to dry, and fog to dissipate. This may be as long as three hours, for some small spot treatments you may not have to leave. The technician will further instruct you upon arrival and assessment of treatment protocol.

Thanking you in advance for your cooperation.
