

PUMP MOTOR COVER

Part # 2PMC16

HORIZON

INDUSTRIES, Inc.

BUILT TO LAST

- Made of durable PVC & aluminum hardware
- Corrosion, Chemical & UV resistant
- No assembly required
- Can be drilled or cut, if necessary
- 16" Long X 11" High X 11" Wide
- Fits most single & two speed motors

DESIGNED TO PROTECT

Round, dome-like design, directs air to flow in and around the pump's motor

White PVC reflects the sun's heat

Pavilion-like shelter keeps the pump's motor cool by providing shade & blocking direct sunlight

Partial back piece allows clearance for electrical conduit and provides additional ventilation

Motor Cover shields the pump's motor from rain & roof runoff

6 vent holes are strategically placed to allow ample cross ventilation

PATENT PENDING

Reduces the motor's surface temperature by an average of 15 degrees

Made in USA
