

The Roaring Twenties:

Flappers, Cocktails and Model T Fords

Few decades have seen such dramatic social and cultural change as the 1920s. Celebrate the 100th anniversary of the start of this tumultuous age with this illustrated lecture by historian Leslie Goddard, Ph.D.

Using photographs, vintage advertisements, magazine illustrations and video clips, we'll explore the "flapper," the rise of jazz music, Prohibition, and the birth of mass culture including radios, Model T Fords and home appliances like electric refrigerators.

Leslie Goddard, Ph.D.
