

**Adeptus Solutions, Inc.** Established in 2008 is a woman and minority owned small business attaining our Small Business Administration (SBA) 8(a) / Small Disadvantage Business (SDB) status on 9/12/2011. Adeptus is a specialized Management Consulting, Information Technology and Supply Chain and Logistics firm headquartered in Reston, Virginia. Adeptus implements solutions using Project Management Institute (PMI) techniques. While working with our teamed partner we can provide standards to ISO 9001:2015, Capability Maturity Model Integration (CMMI), Information Technology Infrastructure Library (ITIL), and Agile Methodology best practices across all projects.

**Partnerships** Adeptus Solutions has established a teaming mentor protégé with the Garrison Walker Group (GWG) a leading Serviced Disable Veteran Owned Small Business (SDVOSB) / MBE with a proven track record at the Defense Logistics Agency (DLA). Our partner has a stellar track record of delivering excellence to clients as supply chain innovators and logistics experts. GWG has established a premium reputation for excellence delivering supplies and logistics services across many asset classes and maintains the latest ISO certification: 9000 - 2015. Our Adeptus/GWG team seeks to establish lasting relationships with clients by exceeding their expectations and gaining trust through exceptional performance by all members of our organizations.

**Why Work with Us?** For over 17 years our management team developed a track record focusing on federal market acquisitions. This strategy allows our attention to directional align with our client's challenges. More importantly to help them identify potential inefficiencies in advance rather than reacting to problems after they occur. In short by being constantly forward - thinking this approach has built our customer's trust and confidence outperforming performance metrics in both the program management and supply chain arenas.

**Mission Driven** Adeptus Solutions supports a wide range of mission critical programs across government agencies. We measure success by consistently providing customized service and adding value with measurable process driven results. Our approach to ensuring program success is simple: Deliver the most effective solutions and streamlined supply chain acquisitions that provide the right outcomes and increased value to our customers. We start with the understanding that each program within the Federal government and its many supply chains is unique. The Adeptus team delivers solutions tailored to the specific needs for each of our clients. The "one-size **does-not-fit-all**" approach enables our firm to meet program objectives more effectively and efficiently.
