	Bye Bye BVI's one more time. Off to home.	

Getting There:

Fly into St. Thomas, USVI and take the ferry from STT or fly direct to Beef Island, BVI and take a taxi to Soper's Hole, West End, Tortola. Flights are usually around \$600 per person.

Ferry Service - St. Thomas has ferry service from its downtown dock in Charlotte Amalie which is near the airport to Soper's Hole on Tortola. The ferry costs \$60 R/T and \$28 O/W for adults but also requires a \$16 R/T taxi from the airport to the ferry dock. Assistance with luggage is generally not needed to walk the few steps to the ticket counters inside and adjoining departure areas for the ferries as we suggest you only bring a medium duffel or roller bag.

Information on the Virgin Islands

- **U.S.V.I** - Our neighboring islands of St John and St Thomas are just a short sail away after clearing through customs. St John is 80% national park with lots of funky stores whilst St Thomas is a shopping zoo! Europeans need a US Visa to sail the boat to the USVI but can travel easily by ferry.
- **TORTOLA** is the main island with the territory's capital Road Town and the home of Conch Charters! There are 3 main harbors for you to explore. Just along the coast is Brandywine Bay offering a sweeping sand beach with a few moorings operated by one of Tortola's premium restaurants called surprisingly Brandywine Bay!
 - Soper's Hole at the west end of the island has the ferries to the USVI. With a full service marina and home to the Jolly Rodger it has all you could need
 - Trellis Bay on Beef Island at the east end of the island has an arts based community with the artist Flukes and Aragon with his famous flaming sculptures. The smoothies at the Cyber Café are delicious. In the middle of the bay is Bellamy Cay, home of the Last Resort Bar and Restaurant with the Singing Chef.
 - Mentioned in at least one Jimmy Buffet song, Cane Garden Bay on the North side of the island is a picture postcard bay. Great place to have a sundowner and watch the dolphins play.
- **VIRGIN GORDA**, or the Fat Virgin, as called by Columbus - It is the second largest island and has 3 main areas. The Baths is a famous National Parks area with huge granite boulders piled on top of one another and 2 great beaches. In the middle is Spanish town the main settlement on the island with a marina close by. The North sound is different again with lots of places to anchor you can spend a couple of days here without getting board. It has everything from small communities to full service resorts with every water sport imaginable.
 - North Sound, Virgin Gorda Located at the Northern end of Virgin Gorda, North Sound or Gorda Sound as it is sometimes called is a large bay protected all around by island and reefs. It is an ideal place to spend several days exploring the reefs and relaxing. There are numerous restaurants and marina complexes to suit all tastes.
 - Leverick Bay Located on the North Shore of Virgin Gorda, Leverick Bay is a great recreational center with a full service marina. Use of the pool and showers for visiting yachtsman are convenient and refreshing. Rental vehicles are available for exploring the island.

- *Gun Creek To the east of Leverick Bay, Gun Creek provides a protected anchorage. Ashore there is the local settlement of Creek Village.*
- *Vixen Point - Several moorings are available off the beach at Vixen point on Prickly Pear Island. The anchorage also had good holding on a sandy bottom, just stay out the way of the moorings.*
- *The Bitter End is a recreational center resort hotel with restaurants and a marina with overnight dockage, guest room and moorings. There are nightly films shown in the outdoor theatre and entertainment most nights.*
- *Saba Rock Saba rock is a small island between the Bitter End and Prickly Pear Island. It has a small resort with rooms, restaurant and marina. If you take one of their mooring balls overnight you get a free fill of water the next morning.*
- *Biras Creek A very protected anchorage and mooring fringes by mangroves. The resort is open to non-residents for dinner but please make reservations. Men must wear long trousers. The Fat Virgin Café on the starboard side as you enter provides more informal lunch and dinner!*
- **COOPER ISLAND** *has great beaches and lush vegetation. The main harbor is Manchioneel Bay, which has lots of mooring balls a restaurant and a golden beach with great snorkeling and excellent for watching sunsets.*
- **GUANA ISLAND**
 - *Monkey Point. At the southern tip of Guana Island is a delightful anchorage known as Monkey Point. It is situated on the western side of the rocky outcrop that marks the southern extremity of the island. There are several national parks moorings. The small beach area and excellent snorkeling make this a great lunch stop. When there is a north swell running the anchorage can be roll-y.*
- **JOST VAN DYKE**, *four miles long, is truly the "barefoot" island known by travelers around the world for its casual lifestyle, protected anchorages, fine beaches and beachfront restaurants and bars. A favorite destination of yachters. Small mountains shelter Great Harbor, an ample anchorage with a small settlement and home of BVI's leading entertainer FOXY. To the west is White Bay named for its long and lovely white beach. Generally recommended as a day anchorage tucked behind a reef that has some great snorkeling on it. To the east end of the island is Little Harbor with a good anchorage and moorings. There is some good walking on the near hills.*
- **MARINA CAY** *is small island, at the east end of Tortola. It was built on in the 1930's by a couple looking for the ultimate island lifestyle, now the Jose Cuervo capital of the virgins. Michael Bean's happy hour show in the library is not to be missed whilst drinking your Pusser's painkiller*
- **NORMAN ISLAND**, *known as the Treasure Island because of the legends of pirates and buried treasure. The Bight is an ample and sheltered anchorage with lots of mooring balls. At the entrance to the Bight is The Caves a national park area that's renowned for snorkeling with a large variety of fish. Just off Norman Island is another national parks area called The Indians, with breath taking snorkeling and superb diving.*
- **PETER ISLAND** *has several good overnight harbors for yachtsmen. Little Harbor is a nice little anchorage with a small beach. Great Harbor has mooring balls a small sandy beach with some great snorkeling but lookout for the fisherman. Sprat Bay Marina and Deadman's Bay are home to the very luxurious Peter Island Resort, one of the world's top destinations.*
- **SALT ISLAND** *is home to the Wreck of the Rhone, the BVI's most famous dive destinations and a National Parks area. Almost deserted, Salt Island gets its name from the two salt ponds, which used to produce up to 1000 pounds of salt.*
- **SANDY CAY** and **GREEN CAY** *are located to the east of Jost Van Dyke. These deserted national park anchorages offer some of the best snorkeling and beach combing in the world. Bring your camera and make your friends jealous!*
- **THE DOGS** - *Great, George, West and East Seal Dog lie to the west of Virgin Gorda and have good water all around them. They are all in a protected area of the National Parks Trust. It is not possible to sail or power between West and East Seal Dogs. If there is not a running sea, there are two good daytime anchorages in the lee of Great dog and George Dog. On George Dog, the best anchorage is in the bay to the west of Kitchen point. Please pick up the National Parks ball as it is 25-35 ft. and you will be back winded.*
 - *On Great Dog there are two possible choices for great water fun. The most common one is on the south side of the island. The second is off the beach on the northwest coast. The snorkeling and diving here is excellent but don't anchor or moor here during ground swells.*
