Capabilities

Security system sales, installation and service.

Riggs Shield™ is the fastest deploying ballistic shield in law enforcement designed to protect officers in the car and outside during patrol functions. It is an NIJ level IIIa ballistic shield that mounts to the door panel of the patrol vehicle, giving instant access to the shield to protect the head and neck. It is rated to stop up to .44 Magnum pistol rounds, punches, stabs, clubs—for less than \$300. **Stay safe!**

The **Guardian Angel™** Law Enforcement Series of portable LED lights are durable, water resistant., with a 93-hour rechargeable battery. It has a front work light function for hands-free illumination, and is visible up to 2 miles. Mounts anywhere— on individuals, vehicles, bikes, epaulettes, canines, turnout gear, medical bags, dashboards, belts, metal surfaces, and more. The unit comes standard with an AC adapter, USB charger, magnet mount and ID card in your choice of colors - blue/blue or red/blue - for \$99. **Go home safe tonight!**
