# Corporate Interactive Flat Panel

Efficient Meetings Wherever, Whenever

Enable Efficient Meeting through EZWrite 4.0
EZWrite 4.0, pre-installed exclusively on BenQ's IFPs, is the ultimate annotation app that offers multiple features, including MS office compatibility, handwriting recognition, collaboration tools for efficient meetings and video recording. Users can share saved annotations through e-mail, QR code or print it out from any printer on the same network.

Discuss and Share Freely with InstaQShare
InstaQShare is the software designed for seamless wireless presentation and collaboration during meetings. It allows users to stream a wide range of visual and audio files, mirror content from mobile devices, stream full HD quality videos smoothly and support up to 16 participants for presentation.

Personalize Presentation with Account Manager
In order to enforce privacy protection while ensuring convenience, BenQ IFPs feature Smart Account Management System (AMS) for multi-account management via NFC technology, which allows presenters to directly access personal folders and bring up customized presentation settings on the IFP simply by tapping an ID card on its front-bezel sensor.
*This function will be available in Q3.

Built-in Speaker
The seamless integration of two embedded 16W frontal speakers and pen tray makes multimedia content more engaging while enhancing the overall productivity during meetings.

Unrivaled Compatibility, Ease of Use, and Safety

Smart Eye-Care Solution
• **TÜV-certified Flicker-Free technology** removes LED backlight flickering and brings forth a zero flickering viewing experience.
• **TÜV-certified Low Blue Light technology** minimizes blue light exposure to reduce eye strain and prevent more critical eye diseases such as macular degeneration or disrupted melatonin secretion.
• **Anti-Glare Display** reduces reflection for more legible text and clearer images.

The Smart Eye-Care solution can function intuitively with the help of the embedded motion sensor. When connected to devices running Android OS, IFPs will set the screen brightness for ease of viewing. When connected to PCs, IFPs will automatically activate the Flicker-Free and Low Blue Light features.

Germ-Resistant Screen
BenQ IFPs feature Germ-Resistant Screens with a multilayer coating of non-toxic, long-lasting ionic silver nano agent to kill most bacteria on contact and effectively block the spread of germs at work.

Multi-Platform Compatibility
Compatible with Windows, Mac, Linux, and Chrome, BenQ IFPs seamlessly present content from any device with plug-and-play simplicity.

Multiple Connectivity
Media USB and Slot-in-PC ports are integrated into the IFP bezel for maximum connectivity and a user-friendly experience. The HDMI out port allows users to extend their home screen across multiple displays, while the Slot-in-PC port accepts x86 and Windows systems to enhance IFP functionality. For maximum versatility, BenQ IFPs also feature ports for WiFi dongles and HDMI 2.0.

*WiFi dongles and Slot-in-PC are only sold in selected regions. Please contact your local sales representative for detailed information.

Hassle-Free Maintenance

MDA Software
Multiple Display Administrator (MDA) allows corporate IT personnel to remotely control the general display settings of IFPs and schedule their on/off times, which help to create hassle-free maintenance for IT personnel.

Corporate Internet Security Control
To avoid possible corporate Internet security breach caused by accessing websites containing inappropriate content, BenQ IFP allows corporate IT personnel to block access to certain websites by configuring proxy server settings. This feature guarantees that corporate Internet remains at a high security level.

Specifications

Model		RP654K
Panel	Screen Size	65"
	Backlight / Lightsource	DLED
	Resolution (Pixels)	UHD 3840x2160 pixels
	Brightness (Typical)	350 nits
	Contrast Ratio (Typical)	1,200:1
	Viewing Angle (Horizontal/Vertical)	178°/178°
	Response Time (ms)	8ms
	Color Gamut (x% NTSC)	72%
	Panel Bit (8 or 10)	10 bit
	Light Life (Typical)	30,000 hours
	Display Orientation	Landscape
Glass	Tempered Glass	4mm, Tempered Glass
	Anti-Glare (AG) Coating	Yes
	Germ-Resistant Screen	Yes
Touch	Touch Technology	IR Touch
	Numbers of Touch	10 points writing/ 20 points touching
	Resolution (Points Area Function)	32,767*32,767
	Touch Interface	USB (type B) x 2
	OS Supported	Windows 8/Windows 7/Windows XP/Vista/Linux/Mac Android/Wince/Chrome
Audio	Internal Speaker	16Wx2
	Earphone (3.5mm)	Yes
	Line In (3.5mm)	Yes
	MIC (3.5mm)	N/A
	Coax Output	Yes
Connectivity	**AC Power**	
	Power (AC) Input	Yes
	Power Switch	Yes
	Basic IO	
	VGA Input	Yes
	VGA Output	NA
	HDMI Input	HDMI (2.0x1, 1.4x2)
	HDMI Output	Yes
