

ALLA BREVE EDUCATIONAL CONSULTING COMPREHENSIVE NEEDS ASSESSMENT SERVICES

Measure School Climate and Build a Solid Foundation for Strategic Planning

With new focus on school climate as per the NYS Education Department's plan for Every Student Succeeds Act (ESSA) implementation, school districts need to collect and analyze data from stakeholder groups connected with the district. Alla Breve Educational Consulting is excited to offer Comprehensive Needs Assessment services to efficiently and effectively identify strengths and weaknesses of a district related to high performance.

By understanding the perspectives of students, instructional and non-instructional staff, administrators, Board of Education members, parents, and community members/organizations, districts can make better decisions that represent the perspectives of all constituents and develop strategic plans that leverage shared decision-making.

With a three-month engagement, districts will have the input they need to set a direction for the future of the district with a clear and shared focus on student success.

About Alla Breve Educational Consulting

Alla Breve is the musical term for cut time, and with Alla Breve Educational Consulting LLC, educational institutions can save time (and money) by being more efficient and effective with their data. With 25 years of research experience, Dr. Nicole (Catapano) Alioto, Owner of Alla Breve Educational Consulting, spent the majority of her career working in higher education and K12 to use data for improving student outcomes and institutional effectiveness, and that mission continues today.

Alla Breve Educational Consulting LLC is a registered IBM Business Partner and certified reseller of SPSS solutions.
