At Red Power Roundup 2023, we will kick off a yearlong celebration of 100 years of the Farmall Tractor

The 30,000 sq. ft. climate-controlled Heartland Events Center-Eihusen Arena will host this exhibit. IH collectors' members from across North America are invited to register a tractor for consideration for this exhibit with a goal of having most models from 1923 to present represented.

To reserve space, contact Howard Raymond at nebraskacowman@gmail.com (308) 650-1527 or Pre-Register online at rpu2023.com

All engine powered exhibits in climate-controlled buildings must be in place by 4:00pm Wednesday June 14th and cannot be removed until after Saturday June 17th at 5:00pm.

If your tractor doesn't get selected for the 100 years exhibit, no worries, an additional 200,000 sq ft of indoor ventilated tractor exhibit space (Sheep Barn, Swine Barn, etc.) exists to show off your collection where you have access to your exhibit for parades, photo book, etc.
