Name _____

Date _____

Complete the area model to make like units. Then add or subtract. Each area model represents 1.

1. $\frac{3}{4} + \frac{1}{8} = \underline{\hspace{1cm}} + \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

$$\frac{3}{4} = \frac{3 \times \boxed{}}{4 \times \boxed{}} = \frac{\boxed{}}{\boxed{}}$$

2. $\frac{1}{2} - \frac{3}{8} = \underline{\hspace{1cm}} - \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

$$\frac{1}{2} = \frac{1 \times \boxed{}}{2 \times \boxed{}} = \frac{\boxed{}}{\boxed{}}$$

Draw an area model to make like units. Then add or subtract.

3. $\frac{2}{3} + \frac{6}{9} = \underline{\hspace{1cm}} + \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

4. $\frac{1}{4} - \frac{1}{12} = \underline{\hspace{1cm}} - \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

REMEMBER

5. Multiply. Show your method.

$$4,358 \times 2 = \underline{\hspace{2cm}}$$

6. \overline{AB} and \overline{CD} intersect at N . Write and solve equations to find the unknown angle measures.

- a. The measure of $\angle ANC$ is $\underline{\hspace{2cm}}$.
- b. The measure of $\angle CNB$ is $\underline{\hspace{2cm}}$.
