

# TETRAD OF FULL MOONS

The purpose of this illustration is to show the Tetrad of 4 Full Moons for the Summer Season in 2021 that appear to be a sort of countdown or prelude to the Fall Feasts of YHVH. The question is, could that be pertaining to the Rapture event to close-out the Church Age perhaps? What is unusual is that these are 4 consecutive Full Moons, spanning 88 days that occur within the time frame of the Summer Solstice of June 20 and the Fall Equinox of September 22. For those that are into the study of Numbers, 88 is recognized as dealing with an 'End of Time' or of a Time Period that is based on a Countdown. The 1st 2 Full Moons occur in the Sign of Sagittarius. The 2nd 2 Full Moons occur in Aquarius. The Tetrad, which means '4' are all Full Moons. The 3rd one is called 'Blue' because normally in a month, only 1 Full Moon is observed. However, on a rare occasion, there can be 2 Full Moons. These 2nd Full Moons are thus called a Blue Moon. Depending on the Season, the 2nd Full Moon can be given other designations, such as the Buck Moon, Hunter's Moon, etc. Why this time frame is perhaps significant is that it is believed by some that are looking and calculating for the Rapture event that this rare double sets of Full Moons or a Tetrad, perhaps are Signaling the time of the end of the Summer Harvest could be significant and may be related or pointing to the Rapture.

This assertion is based on the Boaz and Ruth typology in how they waited until the end of the Summer Wheat Harvest to get Married. Normally, the Summer Season in Jewish custom, like in most other cultures is the time for Joyful Weddings, etc. This is before the time comes for the Fall Feasts of YHVH to commence, which for Israel are about a somber period of Introspection, Repentance and Atonement. If the Boaz and Ruth typology is in play and the Rapture event is to occur in 2021 to close-out the Church Age, then the time after the Tetrad of the 4 Full Moons that are synchronizing to the end of the Summer Harvest is something to consider and watch.

## FULL MOON TETRAD

1. JUN 24, 2021 in Sagittarius
2. JUL 23, 2021 in Sagittarius
3. AUG 22, 2021 in Aquarius
4. SEP 20, 2021 in Aquarius

## FALL FEASTS OF YHVH

### BASED ON ENOCH CALENDAR

After Fall Equinox

30 Days

7TH MONTH: תשרי

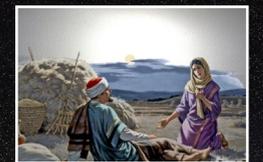

YOM TERUAH YOM KIPPUR SUKKOT

10 DAYS

5 DAYS

7 DAYS

SHEMINI ATZERET  
8TH DAY OF ASSEMBLY

### BOAZ AND RUTH TYPOLOGY OF THE RAPTURE TIMING?

Also note that if one applies the Phi Ratio proportion of time from the 1st Full Moon of June 24, 2021 to the end of the Fall Feasts, to conclude with the 7 days of Tabernacles, the nexus point corresponds to around September 23, 2021 or 923. The point is that although many have been disappointed in failed calculations of when the Rapture event was to have occurred for 2021, there is yet a small Window of Time, or a 'Zone' right after the Fall Equinox that are preceded by the Tetrad of the 4 Full Moons for 2021.

It would constitute the 'Deferment' of the Wedding of Boaz and Ruth, as bringing in the Harvest took precedence over their desire and longing to be wedded. Perhaps this same typology will be in place or is in place, in how the 'Harvest of Souls' on Earth is taking precedence. But that the Wedding of Jesus to His Bride, like a Ruth will surely come, after the Summer Harvests. Hopefully in 2021.
