

Major Changes This Month with TV District Service

The Mohave County Television Improvement District is urging customers to rescan their digital boxes for new channel numbers this month after 18 call signs/stations were changed. According to Supervisor Bishop, the change of channels was due to the Federal Communications Commission's (FCC) May 2014 Report and Order, which implemented a broadcast incentive auction and required the current

reorganization of television bands. "All 18 impacted channels have been changed to new call signs and stations. For customers who are unable to get a signal on any of their channels, rescanning your digital box for the new numbers will bring back all those channels.

Note: Sometimes unplugging your TV for several minutes and then replugging it back into the socket will also trigger a rescan.

The following channels were impacted in the changes:

Current Call Sign	City	State	Channel	Station	New Call Sign
K42CQ-D	CHLORIDE	AZ	42	NBC	K25PJ-D
K49EU-D	CHLORIDE	AZ	49	FOX	K17NS-D
