Mission ~ We honor the highest and best in our clients and ourselves by seeking to understand client needs to accelerate more positive business results. We are especially useful in more challenging economic times.

Vision ~ We see business ownership serving a higher purpose. We understand how vital a part entrepreneurs play in our economy. We work to make sure business owners have what they need to succeed in more challenging times.

Goals ~ Our goals are your goals. We know what it takes to succeed in business today. We can help you through the challenges of today's economy to achieve your dreams. We are entrepreneurs ourselves. Business ownership is our life and has been for more than 25 years.

Structure ~ We are structured like a small law firm or accounting practice. We operate as "rent-a partners." Everyone on our consulting staff has or does own their own business.

Greatest Claim to Fame ~ Because we've served over a thousand businesses and entrepreneurs, and met ten times that through our business analysis process, we know how to help business owners avoid trouble. We understand how to all-but eliminate the costly and time consuming trial and error management method often associated with small business.
