SHALLOW SLOPED BRICKS

STEEP SLOPED BRICKS

ENGINEERING WITH LEGO® BRICKS XTREME CATAPULTS!

LEGO logo trademark of The LEGO Group, these programs are not authorized, endorsed or sponsored by The LEGO Group.

Villa Park Elementary

Day: Mondays

Dates: 1/28, 2/4, 2/11, (No class 2/18,) 2/25, 3/4, 3/11, 3/18

Time: 2:25 - 3:25

Grades: 1st - 6th

Room: TBD

Cost: \$95/ 7 weeks

Students will learn about launching devices such as catapults and trebuchets and launch LEGO bricks across the room. Students will be taught concepts such as energy, levers, and the 1st Law of Thermodynamics as they engineer different catapults. Can you launch a LEGO brick 20 feet across the room? Projects include building a rubber band powered catapult and a trebuchet. Students will earn prizes on the last day and have a chance to earn a medal during our class competition!

Engineering is more than just science!

It teaches students to:

1. Set goals.
2. Find out what it takes to achieve goals by learning physics, math, etc.
3. Applying what you learned to achieve your goal!
