AUTHOR Aleksandra Zaric will be signing copies of her new book that many claimed can change your life in Blacktown on Saturday July 31.

She will be at the Angus and Robinson bookstore, Level 1, Westpoint shopping Centre, 17 Patrick Street from 11am to 12 noon.

Her book 'Energy Intelligence Personal Power Through Spiritual Awareness' carries a warning on the cover that turning the pages can be life altering.

The former business analyst has compiled her professional acumen with spiritual know-how to deliver one of the most effective and how-to-get-what-you-want books.

It is aimed at helping people to overcome financial constraints, employment and energy crisis they have on all our lives.

"Energy Intelligence brings the major disciplines of self-help, guides for success, spiritual growth, and new age, into one book," she said.

"The most influential elements within these fields, and across all denominations, have been merged into a book that offers a path for busy people who demand the ability to reach goals without stopping what they are doing."

She however warned the guidelines were not magical or mystical practices but simple, practical processes that anyone can apply to their life to turn it around for their own goals.

A wife and mother of two young children, she is a graduate of the University of New England and a former contributor to the 'Your Home' section within the Fairfax Community Newspaper Group, NSW.
