

# PinkProtect™ Kit and Components

## Patient Positioning Solutions for the ICU

Begin with the base kit and order additional components to address the positioning requirements of your patients. See the reverse side for details.

### Patient Safety Advantages

- Proven, skin-friendly positioners designed to address the specific patient safety challenges of the Intensive Care Unit
- Featuring DermaProx Pink™ – a breathable, soft, moisture wicking material for the utmost protection against HAPI formation
- Supportive, high-density cores that help distribute pressure during lengthy patient positioning intervals
- Unique designs tailored to the specific requirements of ICU patient positioning

# PinkProtect™ Kit and Components

## Patient Positioning Solutions for the ICU

### Pink Arcs

Maintain skin integrity on heels or tops of feet throughout lengthy positioning intervals

### Dual Layer Pads

Multi-purpose pads protect high-risk pressure areas with DermaProx Pink™ over a high density layer that enhances pressure distribution and durability

### SideProne Headrest

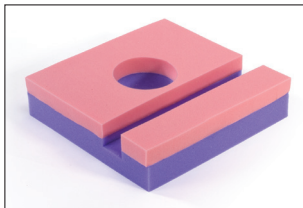

Integrated ET Tube channel to maintain unobstructed airways; materials optimized for both skin protection and long-term support

*"If you already use Xodus Medical Pink Pad Products in the OR, then you know how amazingly breathable the proprietary, open-cell material is. It prevents shear and wicks away moisture, preventing irritation and breakdown."*
