Emmons County Public Health Opening Vaccine Clinics to the General Public

[LINTON, ND] – Emmons County Public Health (ECPH) is opening access to its COVID-19 vaccine clinics to the general public.

“We are now serving anyone who is of the appropriate age to receive the Moderna vaccine,” said ECPH Executive Officer Bev Voller. “We have been receiving the Moderna vaccine only and anyone 18 or older can now receive that vaccination.”

All individuals are encouraged to continue practicing universal precautions to keep yourself and those around you as healthy as possible:

- Practice physical distancing that keeps you at least six feet from other people who are not in your household.
- Wear a face covering if social distancing is not possible.
- Wash your hands with soap often. If soap is not available, use hand sanitizer that contains at least 60% alcohol.
- Clean and disinfect frequently touched surfaces.
- Monitor your health daily and be alert for COVID-19 symptoms.

For ongoing response efforts to the COVID-19 pandemic, the North Dakota Department of Health has established a COVID-19 Hotline to help answer your questions. You may call 1-866-207-2880, Monday through Friday from 8 a.m. to 5 p.m. with questions. Please note that individuals seeking specific medical advice should contact their healthcare provider.

Emmons County Public Health has provided a variety of COVID-19 information through its Facebook page. You can connect with them at www.facebook.com/ecph.gov for updates about testing events. For more info about COVID-19, visit the [ND Department of Health website](#), [NDResponse.gov](https://ndresponse.gov), or [CDC website](#).
