

Recycling Center Update

Due to a dramatic increase in recycling fees charged to the town, we are forced, once again, to separate some of our materials.

- All cardboard, newspaper, and other paper products will continue to be collected in the single stream compactor. All materials **MUST** be clean and dry. Please, no used paper towels, tissues, etc. No plastic bags.
- All glass, plastic, and metal cans will be collected in the open-top container located at the right guardrail before the custodian's booth. Clean recyclables only! Please, no food residue or liquids. No plastic bags.
