

PRODUCT DATA SHEET

LIQUID FERTILIZER – GENERAL PURPOSE

DESCRIPTION

This concentrated product assures quick absorption and vigorous sustained growth. It promotes rapid greening and lush top growth.

FEATURES

- **ALL SEASON FERTILIZER**
- **GOES DIRECTLY TO ROOT ZONE**

DIRECTIONS

Lawn and Turf: Mix 1 pint with 1 gallon water and cover 1000 square feet. Make first application before spring greening, and repeat application every 3 weeks

For trees and shrubbery: 1 pint in 1 quart in 15 gallons of water, spray on foliage

For Root feeding: 4 once per inch of trunk. Dilute with sufficient water and pour or inject into root zone
