SWEET LIPS
BLOSSOM

SWEET LIPS BLOSSOM is a smooth, sweet and fluid multifunctional lip balm ideal for the “blossoming” season: it contains several botanical actives ingredients as well as a well balanced and highly protective lipidic phase based on natural waxes and oils.

From Indena, it contains:

OMEGABLUE®: unique oil obtained from the seeds of *Vaccinium myrtillus*, rich in polyunsaturated fatty acids, has important lenitive properties on challenged skin. It has remarkable emollient properties and fits nicely in the natural lipidic blend of this sweet balm.

XIMILENE®: vasoactive on capillaries, in the lip balm formulation promotes blood flow improving lips oxygenation and aspect.

SILIPHOS®: potent antiageing cosmetic ingredient, improves cells renewal and provides a retinoic acid-like activity but devoid of any irritating potential. It has also shown remarkable skin healing properties, helping in the formulation of crakled skin to heal more easily.
