1.) My dogs are given age appropriate vaccines when old enough and are kept up to date till the time of purchase. You will get a health record showing what vaccines or other medications were given and a Rabies tag if the pet is old enough to receive it. I do not guarantee that your pet will not get Parvovirus, Giardiasis, worms, ear mites, fleas, Kennel Cough, Coccidiosis or other infections once it leaves me. Remember, even vaccinated puppies can still get Parvovirus. Keep puppies away from any unvaccinated dogs and places where dogs congregate until your puppy has had at least 2 or 3 booster vaccines.

2.) HEALTH GUARANTEE: Your puppy/dog is guaranteed for **6 months** from the date of purchase for life-threatening congenital problems such as congenital heart disease. These must be documented by a complete exam or necropsy by a veterinarian including lab reports. Necropsy results must be backed up by results from an accredited diagnostic lab. I will not be responsible for veterinary bills involved with the diagnosis. I reserve the right to a second opinion for diagnosis. **The guarantee is not money back, but a puppy of equal value, as determined by us, in exchange.** There will be no health guarantee for the replacement puppy. You must get the replacement puppy within 6 months of the veterinary exam that prompted the decision to use the health guarantee. I will offer you what is available; I may not have the exact same gender, breed or color. If you choose a puppy of higher value than the one that is being replaced, you must pay the difference in price. You must pay all travel expenses involved with the replacement puppy.

### 3.) SPECIFIC EXCLUSIONS TO THE HEALTH GUARANTEE:

a.) Hernias. My veterinarian inspects all my puppies for hernias before sale. If a hernia appears after sale, we will not pay for repair of the hernia, nor will we replace your puppy that has a hernia. Hernias are generally considered to be repairable, non life-threatening conditions.

b.) Transient Juvenile Hypoglycemia. This is a preventable condition and I will not give refunds for this. If a dog or puppy can be proven beyond a doubt to have a porto-systemic shunt, we will honor the health guarantee. If our veterinarian and your veterinarian do not agree on results, we will accept the opinion of a board certified specialist.

4.) **You must take your new puppy to a vet of your choice within 48 hrs of receiving your pet (72 hrs if you receive your pet on Friday or Saturday) for our health guarantee to be valid. You must show documentation by having the vet sign THIS CONTRACT to receive and VALIDATE the health guarantee. Please email, fax or mail a copy of this completed and signed contract to us at the address above within 10 days of purchase or the health guarantee is voided.
