Programs for Schools

Stimulate your students learning!

Bella Beauties Dance Studio provides school communities with intensive arts immersion programs. Through these unique workshops students explore the elements of dance while developing their creativity as well as analytical and abstract thinking, interpretation and problem solving skills. Workshops focus on the techniques and processes that support different styles of dance and may also connect to many other areas of study, such as analyzing literature or exploring physics. Each class is led by a Teacher/Choreographer and an Assistant Teacher. Students who have never danced before undergo a stunning transformation. Bella Beauties Dance Studio provides programs for students in grades Pre-K through 12th grade.

What students learn and do in the program **Fundamentals of Dance Performance**

Students learn the fundamentals of movement and music by mastering rigorously athletic dance steps with clarity, energy, and precision. They learn the value of excellence in dance, and how important discipline, effort, focus, and teamwork are in achieving it. Students learn how dance and music create meaning, build community, strengthen character, and move audiences as they work toward a common performance goal. Focused through a curricular theme, Bella Beauties introduces students to new cultures and big ideas, engendering in them an abiding curiosity about the world and their place in it. The courses we offer are listed below:

***Creative Movement: K-1st grade**(See speaking and listening standard K5-1st grade standard 4)*
