## Toe & Finger Halloween Cookies

Here you will find detailed step-by-step directions on creating these adorable cookies!

# Styled-It!

## Ingredients

- Bag of Sugar or butter cookie mix or your favorite recipe, that yields 3 dozen 2 inch cookies. I like Betty Crocker's sugar cookie mix
- ½ Cup coarsely chopped Pistachios
- 8 drops of green food coloring
- ¼ Teaspoon of a good quality natural Pistachio extract- \*Optional
- Sliced and whole almonds
- 8 ½ x 11 pieces of white 65lb cardstock for Tags
- String
- Color Printer

\*Some artificial Pistachio extracts tend to be very overwhelming in taste

## **DIRECTIONS:**

1. In a large bowl mix together the cookie dough with food coloring, extract and pistachios.
2. Roll out in shape of small logs; For fingers use a 3 x ½ log and for the toes use a 2 x ¾ log as shown. If Pistachios come through the surface that's okay as it will make the cookies look "warty"

3. Make indentations along the length of the cookies by gently pressing in the sides with your fingertips. For fingers do it at two points to create a finger shape and at one point for the toe to give the tip a bigger rounder more toe like appearance.

4. Using a small paring knife make small cuts to create knuckles and cut off the end to give it a severed appearance.

5. Bake cookies as directed.

6. As soon as you remove cookies from the oven place a small dot of red food gel or icing on tip of finger and gently press on the whole almonds on toes and the sliced almond on the finger tips making sure a little “blood” oozes out of the edges.

7. Once cookies are completely cool add more of the gel at the end or “severed” part of the cookie and attach toe tag .

**GREEN TOE OR FINGER COOKIES**

## Toe Tags

1. For best results print on a white matte 65lbs cardstock
2. Hole punch tag in the brown circle area and tie to cookie using any kind of string or kitchen twine!
