2018 TENNESSEE SKYWARD USERS CONFERENCE SESSION DESCRIPTIONS

FINANCE SESSIONS

	FINANCE SESSIONS
A/P Processing and Reporting A-Z	We'll cover all of the reporting related to the Accounts Payable process including Vendor Check History and Vendor Data Mining.
	Learn about the reporting for Budgetary Data Mining, Vendor Check History and General Inputs reporting. We'll begin with the more basic setup
Account Management Reporting	of Budgetary Data Mining reports and move to more advanced.
AP and SBAA Reporting	How do regular A/P vs. SBAA vendors relate and what are some options for reporting accounts payable activity for each of these?
	See popular web budgeting options, including budget requisitions, mass change options, budget entry options, budget exporting/importing and
Budgeting Options	online budget transfer requests.
	Learn how to prepare for, and process your finance fiscal year end. We will show how to identify activity that has been entered into the
Finance - Preparing for Year End Processing	software, but not yet posted, and will show how to close open purchase orders or move them to the next fiscal year.
Finance Tips and Tricks	Receive valuable tips on how to make the Financial Management software perform for your district more efficiently.
	This session shows you how to do Journal Entries, Budget figures, Budget Transfers, and how Budget Revisions can be imported to
Finance Transaction Importing Options	Skyward.
	This session will highlight how to manually add an asset and more advanced options such as the Build from Invoice process. We will
Fixed Assets Overview	also discuss batch updating additions and disposals, and demonstrate key reports.
New Features in Finance & Human Resources	This session will be a demonstration of some of the newest options available within Finance & Human Resources
Requisitions and PO Receiving	A thorough review of the Requisition process and the receiving of items on the approved Requisitions are the subjects of this session.
SBAA Transaction Processing	How to process SBAA transactions and make proper corrections will be addressed on this topic.
	la contra de la contra de la contra de destructura de destructura de la presenta de la contra de deservela de d
	Learn how to process financial reports that are tracked in Tennessee's E-Reporting system. Reports included are the Annual Budget
State Reporting-Budget/Financial Reports	Report, Budget Amendment Report, Annual Financial Report, Quarterly Federal Projects Report and Trustees/Treasurer's Report.
	HUMAN RESOURCES SESSIONS
Affordable Care Act Reporting	This session will provide a walk through of the processing areas of the 1094/1095 B and C areas.
	We'll explore the purposes and construction of Custom Forms for HR as well as how to record data and report the information from these
Custom Forms	screens.
	As a continuation of the Plan Setup session, this session will demonstrate the Step Increase process, Mass Changing
Employee Management Year End Roll	Position/Assignment information, and the Assignment Export/Payroll Import process.
Employee Management Fear End Roll	Fast Track integrates your hiring process with the Skyward Software. This session will show you how to use the web to post openings at
Fast Track Overview	your district and allow applicants to apply online.
	You will learn to create a multitude of Data Mining reports in this workshop, from the simple to the more complex as well as touch on the
HR Data Mining and Custom Forms	introduction of Custom Forms information into these reports.
	Discover if there are options within the Payroll and HR modules that will allow you to speed-up or streamline your payroll processing
HR/Payroll Tips & Tricks	steps. Maybe you have some useful tips that you'd like to share as well!
New and Leaving Employees - Security	What steps should be considered in Onboarding and Exiting employees from a Security standpoint as it relates to HR and how does the system
Management	assist with this process?
New Features in Finance & Human Resources	This session will be a demonstration of some of the newest options available within Finance & Human Resources
Payroll - Entry and Verification	We'll share tips for payroll data entry as well as reporting for verification and troubleshooting to ensure accuracy in your payroll processing.

Profile Options	This session will highlight some features in the HR Employee Profile that you may not have realized are available to you.
	This feature allows the user to produce letters or documents with employee-related information embedded in the documents without
Salary Notifications and Online Forms	needing a mail merge! You can save templates for re-use and you can include fields created in Custom Forms.
State Reporting HR/Payroll Reports	Learn about processing retirement and PIRS.
State Reporting- TCRS	We will have a representative from TCRS discuss and take your questions on the processing of this retirement.
	In SubTracking, you can enter corrective history, adjust sub pay for prior periods and override breaks for long-terms subs. Come see how to use
Subtracking Overview	these features plus discuss other related topics like allowing your employees to access your substitute calling system from Employee Access.
	Task Manager is Skyward's free module that allows districts to set up their particular process flows. In many cases, data entry is just
	one part of the process. Get an idea of how this tool allows you to organize and track your processes when you identify the steps,
Task Manager	employees and data involved.
Time Off State Instructional Tracking and Reporting	Learn about approaches to meeting State Instructional Tracking and Reporting through the Skyward system.
	Have you had True Time setup for a while now but are wondering if there are other options that you could be using or in a better way. This
True Time Rulegroup Options	session will explore how the options work to track time entered for various scenarios.
	This session will explore avenues for making corrections to True Time entries at various stages in the process as well as reporting that will assist
True Time Troubleshooting	with identifying issues.
	STUDENT MANAGEMENT SESSIONS
	This session will cover adminstrative features available thru EA+. Items to be covered include Super User and grade posting
Administration of EA+/Gradebook	administration.
Attendance Letter Setup	This sessions will cover how to setup and generate letters notifying parents/guardians of poor student attendance.
	This session will cover how to look at your current Attendance Setup and what each area means, as well as how to enter/edit
Attendance Setup and Entry processing	Attendance on a daily basis thru various means in Skyward.
CRDC	This session will provide an overview of the Office of Civil Rights Data Collection process within Skyward.
Current Scheduling -Scheduling to Reporting	This session will cover some basic Scheduling options, including Scheduling Groups, and using the Walk In Scheduler.
	This will be an overview of setting up both Standards and Secondary Custom Report Cards. We will be going over importing in a
Custom Report Cards - Standard & Secondary	template previously created, creating a new template from scratch, and editing a previously created one.
	This session will include an overview of the basics in Data Mining. Items that will be covered are, Creating and Running Reports, Setting up a
	Data Mining Report and Viewing the Results.
Data Reporting Overview	
	Suggestions and best practices for reviewing and verifying your data will be discussed, along with how to use the Ed-Fi Data by Subject
Ed-Fi	screen to compare your records in Skyward with what is currently listed in the Ed-Fi program.
	In this sales session, we will review the overall functionality of the Fee Management module and the benefits it provides,
	such as Automated billing of Course Fees, Mass application of fees for Activities, Viewing
	fee activity and paying fees online.
Fee Management Introduction	
	This session will be a general overview of the Food Service module. This session will cover entering information,
	as well as reporting options. The remainder of the session will be comprised of an open
Food Service Overview	forum for you to ask whatever questions you may have on the topic.
	This session will discuss options for Future Scheduling for setting up the Course Master and Scheduling Students. Setting up the Course
	Master- Options for setting up courses, sections and meet records. Scheduling Student - By Student options, By Class and Mass Add
Future Scheduling - Getting started	Students to Courses.
