Re: **Notification of Asbestos Inspection and Management Plan Availability**

To: Whom It May Concern:

The Asbestos Hazard Emergency Response Act (AHERA) requires that all schools conduct detailed inspections to identify all asbestos containing building materials (ACBM) that may be present in the school environment. AHERA requires the inspection results and the associated Management Plan to be submitted to the Louisiana Department of Environment Quality (LDEQ). A copy of the Management Plan must be maintained at the administrative office and available for review by the public.

Maurepas School maintains a proactive asbestos awareness program. Periodic surveillances (every six months) are performed by a qualified individual to assess the condition of the remaining asbestos containing building materials (ACBM). All of the information is updated in the Management Plan and available for review.

This letter of notification is an annual requirement to the public. If there are any questions, please contact the Designated Person, Danita Duffy, at 225-686-4212 for more information or assistance.
