

Hannah's Hometown Heroes

Hannah Bocker was burned over 80-90 percent of her body when a plane crashed into her house in late August. She is being treated at Westchester Medical Center and has undergone multiple surgeries. She has used many blood products (platelets, red cells, plasma) and will continue to need more transfusions as she heals. Your blood donation is needed now! Please donate on 10/12/19 and become one of Hannah's Hometown Heroes!
