DESCRIPTION: This is a pretty nice old recurve that looks much better in person than it does in the pictures. This bow does not look to be homemade, but rather from a regional or national bowyer. However, the bow is completely unmarked and I don't recognize it. Generally with vintage bows the riser is in better condition than the limbs. With this one however, the limbs are in great shape while the riser shows its age. This bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Overall, this is a really nice bow in excellent condition for its age. If you're a fan of the old fashioned straight grip recurves, this is a good choice.
