

Health Care Facilities

Raines Electric is experienced in new and remodel electrical construction of operating rooms, installation of MRIs, x-ray equipment, CT scanners, radiation treatment equipment and emergency back up generators. We want to be the electrical contractor on your new or remodeled health care facility in Pasco, Kennewick and Richland, WA.

We've worked on facilities including:

- hospitals
- surgical centers
- doctor offices
- dental offices

Tri City Orthopaedic Clinic Richland, WA – This health care facility was a modernization and addition project. The facility required a service upgrade to be able to handle the new surgical rooms and operating equipment. We installed each surgical room with a surgical light and we also installed power for sterilizers, autoclaves and vacuum pumps. The surgical unit had a recovery ward where we installed power for general purpose lighting and recovery beds. An emergency generator was installed for the surgical facility. We updated all electrical systems in the remodel with new lighting and power outlets. Exterior, site and sign lighting was also installed. We provided fire alarm, security, data and phones.

Tri City Orthopaedic Physical Therapy Richland, WA – We were the electrical contractor for this new design/build where we installed general purpose and specialty lighting, general purpose outlets. Our electricians also installed power for MRI, Aquatic Therapy Pool and HVAC. Exterior and site lighting was also part of our project. Fire Alarm, phone and data were also supplied.

Orthodontist Kennewick, WA – We provided the electrical services for this orthodontist facility. For this tenant improvement our electricians installed power for general purpose lighting and outlets. We also installed power for the dental chairs and x-ray machine as well as HVAC.

NW Orthopaedic Richland, WA – We were the electrical contractor for this health care building modernization and addition. We installed general purpose lighting and outlets, power for new elevator, MRI. We also provided exterior and site lighting.

Tri City Cancer Center – We've been the electrical contractor for the Cancer Center since 1999. We've participated in all remodels and expansions, some were design build and others were engineered projects. Electrical work we've done has included new CT scanners, radiation treatment equipment, robotic cancer treatment system and general maintenance.
