

Longhorn Organics

Environmental and Aquatic Consulting

John George joins the Longhorn Organics team, adding artistic and drafting services to the company's portfolio of services. With an Associates of Applied Arts degree, for over 10 years John has been a freelance Graphic Designer, Flash animator, motion graphics animator, and architectural rendering specialist for a clientele ranging from custom stone carvers, residential and commercial builders to land developers in the Dallas area.

John's computer design skills led him to the world of BIM working with detailed MEP modeling and clash detection protocols for commercial construction clients. John began his relationship with Longhorn as a freelance BIM specialist and officially joined the Longhorn team in 2018 as BIM Director.

Since joining the Longhorn Organics family John has become a valuable member of the project management, pre-construction, and quality control staff. John brings with him experience and proficiency in multiple software platforms including:

- Project Management Software
- Autodesk Suite
- 3D CAD
- Adobe Suite
