

I am writing this review to say thank you to Leslie for your kindness and patience, but most of all for your knowledge and skill to help my nephew succeed in getting his G2 and then his G licence. Leslie made sure that the rules of the road were followed and ensured that the mistakes that my nephew made while driving were corrected and she did this while making my nephew confident in driving.

We used Leslie's car for the G2 test and this is something I would recommend. Leslie took my nephew out driving an hour before his G2 test to do a trial test to make sure he was confident in going his road exam. When my nephew got back to the testing centre he was so happy that he passed and he could drive on his own.

I called Leslie some time later to book a few lessons before my nephew took his 'G' exam to have a refresher on the rules of the road since we create our own bad habits driving. Leslie had great feedback on what needed to be worked on. We had a final lesson the day before his 'G' exam and I am so thankful that we did, my nephew passed his 'G' licence.

I am most certain that it was because of Leslie's time, patience, experience and skill that we have another full 'G' licenced driver in the household. I would highly recommend Leslie to everyone that is looking for a skillful driving instructor to teach their loved ones how to drive.

Thank you Leslie.

Terri-Lynn
