

**Peek!**

**Whoops-I got it**

**Hey-what about me**

**Like my top?**

**I'm so Happy!**

**Righteousness leads to life.  
Proverbs 11:19**

**February 2015  
Gondar, Ethiopia**

**No smile from me**

**Celeste and Doc Rock**

A grateful thank you to Celeste. She prepared our paperwork for JVMI. And she did it with a smile despite the clinic steps.

**The before...**

All were grateful for the over 40 surgeries done. Imagine putting up with this bump for so many years and now it is gone. It is a whole "new changed life" just like when one makes Jesus Lord of their life.

**See one done...**

It is a joy to let others experience medicine on their interactive level.

**Steps in need of repair!**

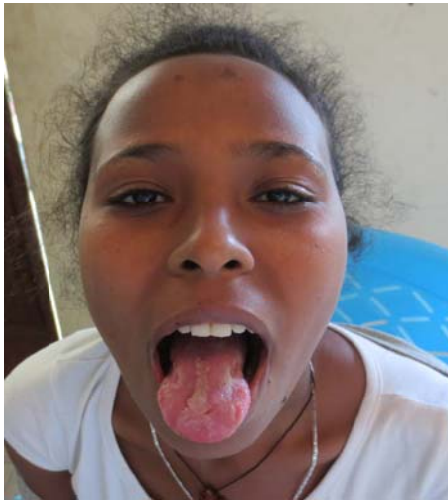

**...the after**

**...do one-well maybe**

**Geographic Tongue**

The geographic tongue was ever present. Of course there is much ringworm and fungus, especially to the scalp in kids forced to sleep on the ground.

**In the Emergency Room**

About 1 ½ hours before we were to leave there was an accident by two young men on bikes in front of our hotel. One was not doing well mentally. We helped and took him to the ER with much prayer.

**Castle of Menelik I**

Per their history, Malakat-Shaba the Queen of Sheba, visited Solomon the King of Israel and had a son called Menelik I. His capital was in the mountains of Gondar.

What a beautiful view for the King when he went walking. His son and grandson had their capital there also before the capital was moved to Addis Ababa.

The Star of David is part of the wall found in many walls of the castle as a symbol.

The least expensive native dish is Injera which is a sourdough teff flour bread. You may like it.

**Tinea capitis**

**Bus crash into building**

**RMO Schedule 2015**

**February-I am in Thailand**

**May-June-Nicaragua**

**July-Amazon in Brazil**

**September-Ghana, Lord willing**
