and for those who mourn the loss of a loved one.

DURING THE MONTH OF NOVEMBER, WE REMEMBER AND PRAY FOR DECEASED LOVED ONES. The Church encourages us to continue this tradition by entering the names of deceased loved ones in the Book Of The Faithful Departed. **Please note: If loved ones' names were previously entered in the book their names are still in the book and they will be remembered during our liturgies. No need to write their names in again.**

The book of the Faithful Departed will be placed at the entrance of the Church for the whole month of November. Anyone is welcome to enter names of deceased family members or friends who have died during the past year.

WORLD DAY OF YOUTH NOVEMBER 20TH

Instituted in 1985, at the conclusion of the International Year of Youth and in conjunction with Saint John Paul II's World Youth Day gatherings, this observance has taken place on Palm Sunday. In 2020, Pope Francis transferred the date to the Solemnity of Our Lord Jesus Christ, King of the Universe. "Young people must say to the world: it is good to follow Jesus! You bring us the joy of faith and tell us that we must live the faith always with a young heart."
(Pope Francis)

You may have noticed our new bulletin covers have arrived. Covers are printed for a year at a time. Please note a change on the inside back cover, St. Augustine's Liturgy is now under the direction of Justin Mury at qasliturgy@gmail.com.

Your Parish Needs You! There are many volunteer opportunities at St. Augustine's Church and the parish is in need of your help to build our faith community. We are looking for adults and youth to help in various roles during mass, on committees and at our parish charities and organizations. Workshops and training will be provided to everyone interested – don't worry; you do not need to be an expert. All those interested can volunteer as little or as often as they like. Schedules will be completed ahead of time to give everyone the opportunity to prepare and feel comfortable volunteering. In your

pews or at the entrance of the church, there are volunteer forms which you can complete. Once completed, place the form in the weekend collection basket, the basket at the entrance of the church or mail/email it to the Parish Office. Someone from the parish will get in touch you once we receive your form. Thank you!

Please note this session will also be open to anyone interested in learning more about the Eucharist, but registration is still necessary.

CONVERSATIONS AROUND DEATH AND DYING (MAiD) One theme arising from previous sessions on MAiD was that many of us are uncomfortable discussing our own death as well as the death of a loved one. However, honest conversations (about values, good palliative care, or advanced care planning) can help to improve the care we receive at the end of our lives. In response to this, the Committee Looking at Medical Assistance in Dying (MAiD) is planning a session for **Monday, November 21st at Holy Family (Falkland Street, Moncton) from 7:00 pm – 8:30 pm.** The session will be led by Pam Driedger, member of the Adult Faith Commission and a Director of Spiritual Care at the Moncton Hospital with Horizon Health Network. The aim of this session will be to help families start conversations about death and dying before circumstances force them to. How can families and loved ones accompany those who find themselves struggling with illness, pain and difficult medical circumstances? Register with Karen LeBlanc at 387-4198, karen.diocese@gmail.com or online at www.diomoncton.ca → Pastoral Offices → Adult Faith → Formation Opportunities.

Today let us look at “ *safe drinkable water is a basic and universal human right, since it is essential to human survival and, as such, is a condition for the exercise of other human rights.*” It seems so obvious but the state of fresh water, suitable for human consumption, is declining. The challenges our Indigenous brothers and sisters face across this country has been a scandal for too long. Let us read an excerpt where Pope Francis expresses his concerns.

II. THE ISSUE OF WATER

27. Other indicators of the present situation have to do with the depletion of natural resources. We all know that it is not possible to sustain the present level of consumption in developed countries and wealthier sectors of society, where the habit of wasting and discarding has reached unprecedented levels. The exploitation of the planet has already exceeded acceptable limits and we still have not solved the problem of poverty.

28. Fresh drinking water is an issue of primary importance, since it is indispensable for human life and for supporting terrestrial and aquatic ecosystems. Sources of fresh water are necessary for health care, agriculture and industry. Water supplies used to be relatively constant, but now in many places demand exceeds the sustainable supply, with dramatic consequences in the short and long term. Large cities dependent on significant supplies of water have experienced periods of shortage, and at critical moments these have not always been administered with sufficient oversight and impartiality. Water poverty especially affects Africa where large sectors of the population have no access to safe drinking water or experience droughts which impede agricultural production. Some countries have areas rich in water while others endure drastic scarcity.

29. One particularly serious problem is the quality of water available to the poor. Every day, unsafe water results in many deaths and the spread of water-related diseases, including those caused by microorganisms and chemical substances. Dysentery and cholera, linked to inadequate hygiene and water supplies, are a significant cause of suffering and of infant mortality. Underground water sources in many places are threatened by the pollution produced in certain mining, farming and industrial activities, especially in countries lacking adequate regulation or controls. It is not only a question of industrial waste. Detergents and chemical products, commonly used in many places of the world, continue to pour into our rivers, lakes and seas.

30. Even as the quality of available water is constantly diminishing, in some places there is a growing tendency, despite its scarcity, to privatize this resource, turning it into a commodity subject to the laws of the market. Yet *access to safe drinkable water is a basic and universal human right, since it is essential to human survival and, as such, is a condition for the exercise of other human rights.* Our world has a grave social debt towards the poor who lack access to drinking water, because *they are denied the right to a life consistent with their inalienable dignity.* This debt can be paid partly by an increase in funding to provide clean water and sanitary services among the poor. But water continues to be wasted, not only in the developed world but also in developing countries which possess it in abundance. This shows that the problem of water is partly an educational and cultural issue, since there is little awareness of the seriousness of such behaviour within a context of great inequality.

31. Greater scarcity of water will lead to an increase in the cost of food and the various products which depend on its use. Some studies warn that an acute water shortage may occur within a few decades unless urgent action is taken. The environmental repercussions could affect billions of people; it is also conceivable that the control of water by large multinational businesses may become a major source of conflict in this century. [23] Pope Francis insight into the potentially terrible repercussions of our mismanagement of this precious resource seem to be coming true. Drought, flooding and famine are increasing, creating migration issues that test the resiliency of those affected and the charity of the privileged.
