

Veterans need VHIC for in-person Commissary, Military Exchange, MWR access

Expansion to start Jan. 1, 2020

The Defense Department has announced expanded Commissary, Military Service Exchange and MWR [access Jan. 1](#) and established a standard for physical access to military installations.

Veterans and Primary Family Caregivers who are eligible and want to take advantage of in-person benefits must have a Veterans Health Identification Card, or VHIC. Primary Family Caregivers must have an eligibility letter from VA's Office of Community Care.

Veterans use VHICs for identification and check-in at VA appointments, but will also use them for base access under the new program.

Veterans eligible solely under this act who are eligible to obtain a Veteran Health Identification Card must use this credential for in-person installation and privilege access. The card must display the Veteran's eligibility status (i.e., PURPLE HEART, FORMER POW or SERVICE CONNECTED).

Veterans eligible solely under this act who are not enrolled in or are not eligible to enroll in VA health care, or who are enrolled in VA health care, but do not possess a Veteran Health Identification Card will not have access to DoD and Coast Guard installations for in-person commissary, exchange, and MWR retail privileges, but will have full access to online exchanges and American Forces Travel.

Medal of Honor recipients and Veterans with 100% service-connected disability ratings are eligible for DoD credentials under DoD policy

If you meet the above criteria, the Martinez Veterans Service office can assist you in applying for VA Healthcare and obtaining the VHIC. Please visit our Martinez office, for best assistance with this (10 Douglas Dr. #100).
