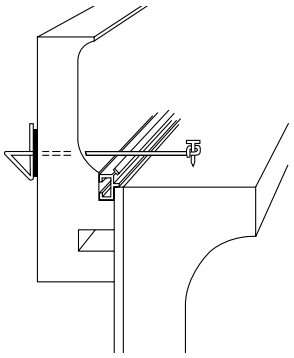
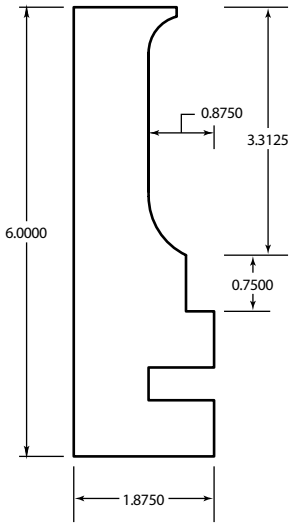
FIBER-OPTIC REGULAR

Poured in Place Perimeter Fiber-Optic Form (Gunite / Fiberglass)



- Quick-set system for installing perimeter Fiber-Optic Lighting.
- The Fiber-Optic Receiver is set with the Cantilever form.
- When the Cantilever form is removed, the perimeter Fiber-Optic Receiver remains in place.



PART #	DESCRIPTION	
17FS112	For Fiberstars FSSB, FSSB-CABL-42 & Supervision SV23	
17SV112	For Supervision SV32, SV42, Lumenyte, Fiberstars ELD, BPAK-50, Fiberworks FW 25, FW 50	
17AP112	For Fiberworks Ultra Glow 25, 50, 75	

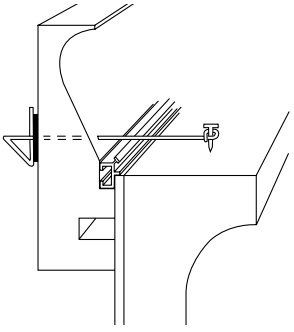
PACKAGED 112' PER CARTON

(FLEX TRACK IS ALSO AVAILABLE)	
For Flex-Track, add this extension to the end of the part number.	- FLEX

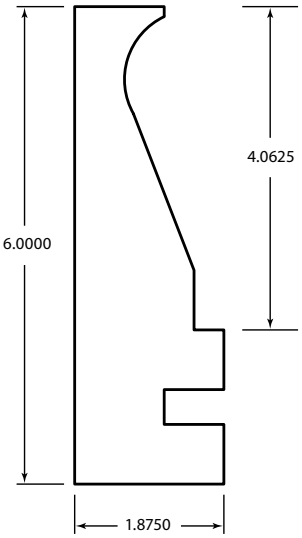
CARTON INCLUDES:
- 112' FIBER-OPTIC REGULAR FORM
- 112' FIBER-OPTIC RECEIVER
- 1 TIE WIRE SIDE KIT

FIBER-OPTIC CAPSTONE

Poured in Place Perimeter Fiber-Optic Form (Gunite / Fiberglass)



- Quick-set system for installing perimeter Fiber-Optic Lighting.
- The Fiber-Optic Receiver is set with the Cantilever form.
- When the Cantilever form is removed, the perimeter Fiber-Optic Receiver remains in place.



PART #	DESCRIPTION	
7FS112	For Fiberstars FSSB, FSSB-CABL-42 & Supervision SV23

Pool Cover No Extender - Tie Wire - White Tile Strip	**	4CF112NE

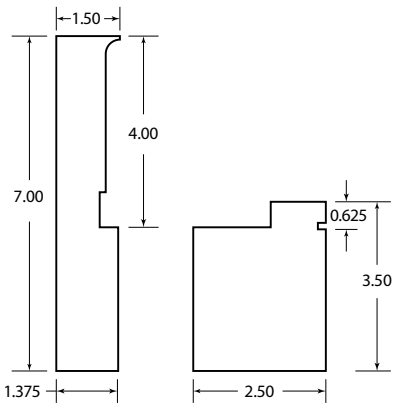
* PACKAGED 104' PER CARTON
(INCLUDES 2 TIE WIRE SIDE KITS)

** PACKAGED 112' PER CARTON (INCLUDES 1 TIE WIRE SIDE KIT)

POOL COVER FORM II

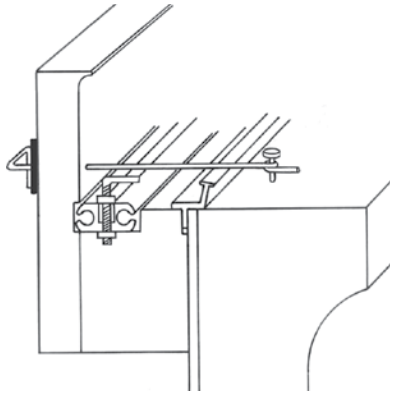
Poured in Place Pool Cover Form (Gunite)

This product saves time by mounting the track the same day as the pour and is an extremely strong attachment because the anchors are cast into the concrete.



CARTON INCLUDES:

- 104' POOL COVER FORMS
- STAINLESS STEEL HARDWARE KIT
- 90 DEGREE PREFORMED GUNITE CORNER KIT
- 2 TIE WIRE SIDE KITS



DESCRIPTION	PART #
Pool Cover Form II Tie Wire - White Tile Strip	4PC104
Pool Cover Form II Capstone Tie Wire - White Tile Strip	49PC104
Pool Cover Form II Regular Tie Wire - White Tile Strip	41PC104

POOL COVER FORM E

Poured in Place Pool Cover Form for Pools having Encapsulated Tracks

Pool Cover Form E provides a cantilever edge on swimming pools having encapsulated automatic pool covers. The foam protrusion above the double faced tape is designed to key into the aluminum channel, keeping it clean during the pour and establishing elevation.

Part# 4PCEL

CARTON INCLUDES:

- 104' POOL COVER E FORMS
- 125 TIE WIRES
- 125 CONCRETE NAILS
- 125 SELF-TAPPING SCREWS
- 125 WASHERS
- 1 ROLL OF BENDING TAPE

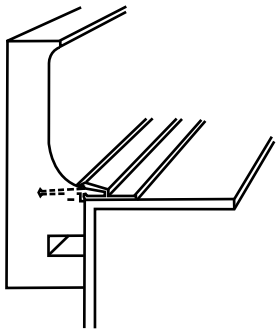
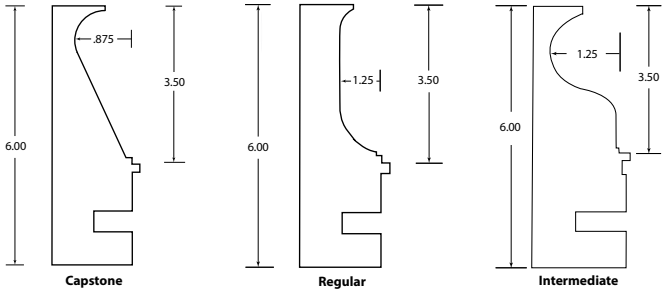
Just order "WITHOUT TRACK" and order 8CF950 for Aluminum Liner Track (Straight) or 8CF955 for Aluminum Liner Track (Flex-Track). See Page 12.

CARTON INCLUDES:
- 112' CLIP-LOC FORMS
- 112' LINER TRACK
- 100 SELF-TAPPING SCREWS
- 1 ROLL BENDING TAPE



Clip-Loc Regular shown

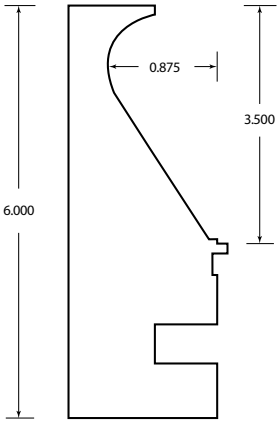


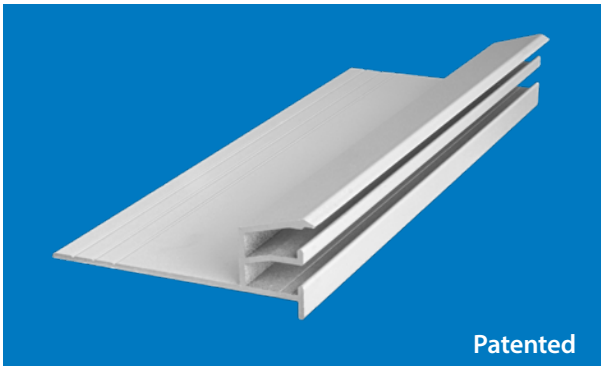
CLIP-LOC & DUAL ALUMINUM TRACK Regular, Capstone and Intermediate

The Dual Aluminum Liner Track system allows for a liner to be placed into position before the cantilever form placement occurs.

This liner track provides a lower slot that is designed to accommodate most liner beads. The upper slot will accept any of the Clip-Loc Form profiles.

Stegmeier offers a PVC filler strip extrusion that will fill the upper slot after the forms have been removed.





Patented

CLIP-LOC FORMS	PART #
Capstone (Without Track)	8CF1000NT
Regular (Without Track)	8CF1001NT
Intermediate (Without Track)	8CF1002NT

PERIM-A-LITE REGULAR

Poured in Place Cantilever Form with Fiber-Optic Application (Liner Pool)

Perim-A-Lite Regular is a Clip-Loc method form with a fiber-optic application. The fiber-optic channel is attached to the inside of the form with double faced tape prior to the pour and is permanently secured into the cantilever profile.

CARTON INCLUDES:

- 112' PERIM-A-LITE FORM
- 112' LINER TRACK
- 112' FIBER-OPTIC RECEIVER
  (Flex Track is also available)
- 14 2" FIBER-OPTIC INSERTS
  (Aluminum Liner Track is also available)

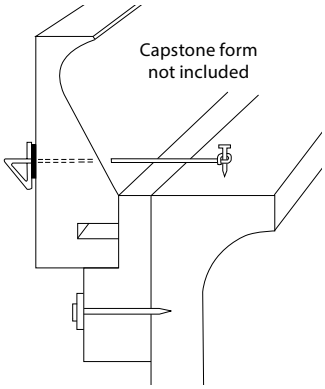
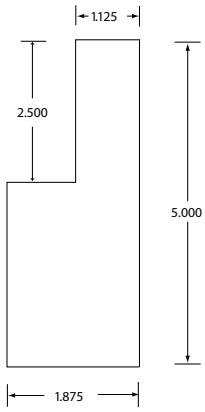
	pieces are 8' in length		
Liner Track	2' Corners	10 pieces per carton	8CF997

STEP LEDGER

This ledger system is used when it is necessary to pour the cantilever deck prior to setting the tile. Step ledger is nailed to the pool wall, level with the high point and the Stegmeier pool form is attached with double faced tape. Step ledger may be used to install any of the following Stegmeier deck forms:

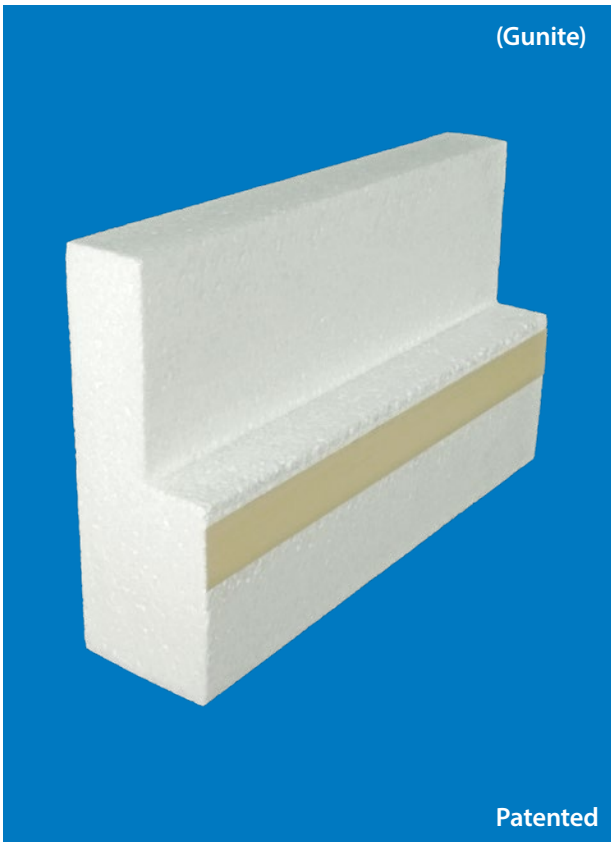
- **CAPSTONE**
- **REGULAR**
- **DEEP REGULAR**
- **INTERMEDIATE**
- **CLASSIC ROMAN**
- **COMMERCIAL**
- **SANDSTONE**
- **OG FORM**
- **RESIN ROCK**
- **DEEP RESIN ROCK**





CARTON INCLUDES:
- 112' STEP LEDGER
- 100 2-1/4" CONCRETE NAILS
- 100 2" CONCRETE NAILS
- 100 FENDER WASHERS
- 1 ROLL BENDING TAPE

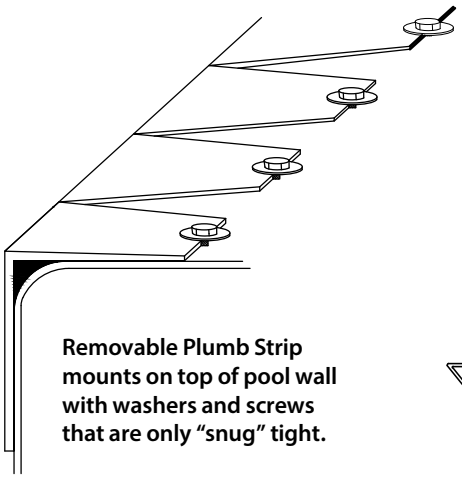
DESCRIPTION	PART #
Step Ledger	16CF112



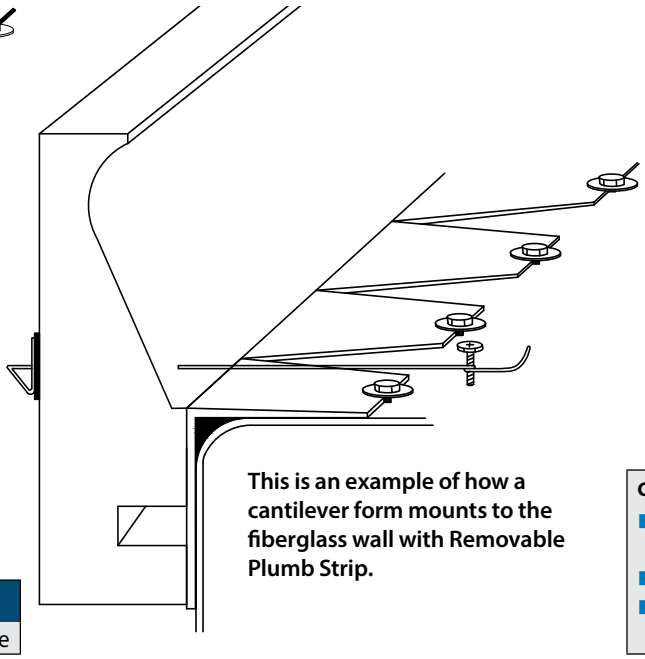
REMOVABLE PLUMB STRIP

Now You Can Remove the Plumb Strip when you're done! (Fiberglass)

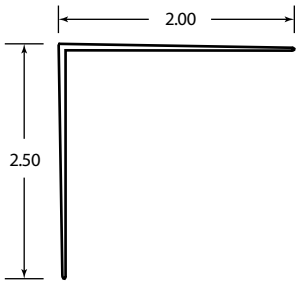
Removable Plumb Strips are PVC corner strips used to square the top edge of a fiberglass pool (one piece) in preparation for setting a Cantilever Form. Removable Plumb Strips are installed using double faced tape and self-tapping screws with neoprene washers. Fasten screws snug tight only so the whole piece can be removed after the job is complete. Tighter radii may be formed by adding additional relief cuts making Removable Plumb Strip adaptable to virtually any pool or step configuration.



Removable Plumb Strip mounts on top of pool wall with washers and screws that are only "snug" tight.



This is an example of how a cantilever form mounts to the fiberglass wall with Removable Plumb Strip.



REMOVABLE PLUMB STRIP IS ONLY AVAILABLE IN "FLEX".

DESCRIPTION	PART #
Removable Plumb Strip	RPS-W-FLEX-White

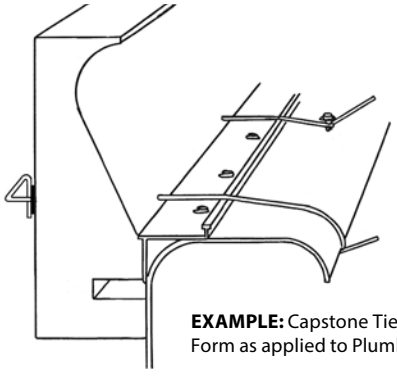
CARTON INCLUDES:

- 112' REMOVABLE PLUMB STRIP - 8' LENGTHS
- 100 SELF-TAPPING SCREWS
- 100 NEOPRENE WASHERS

PLUMB STRIP

Used to Square the Top Edge of Fiberglass Pools (Fiberglass)

Plumb Strips are PVC corner strips used to square the top edge of a fiberglass pool (one piece) in preparation for setting a Cantilever form. Plumb Strips are installed using the self-tapping screws provided. Flex Track is available. Tighter radii may be formed by adding additional relief cuts, making Plumb Strip adaptable to virtually any pool or step configuration.

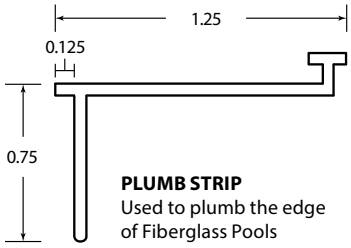


EXAMPLE: Capstone Tie Wire Form as applied to Plumb Strip.

DESCRIPTION	STRAIGHT	FLEX
Plumb Strip White	FBGL-W	FBGL-W-FLEX
Plumb Strip Grey	FBGL-G	FBGL-G-FLEX

CARTON INCLUDES:

- 112' PLUMB STRIP - 8' LENGTHS
- 100 SELF-TAPPING SCREWS



PLUMB STRIP
Used to plumb the edge of Fiberglass Pools

DESCRIPTION	WHITE	GRAY

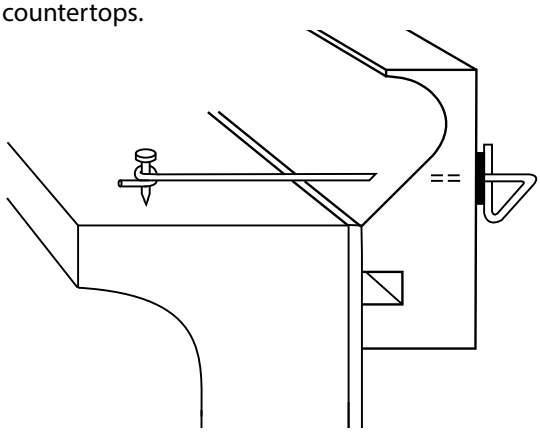
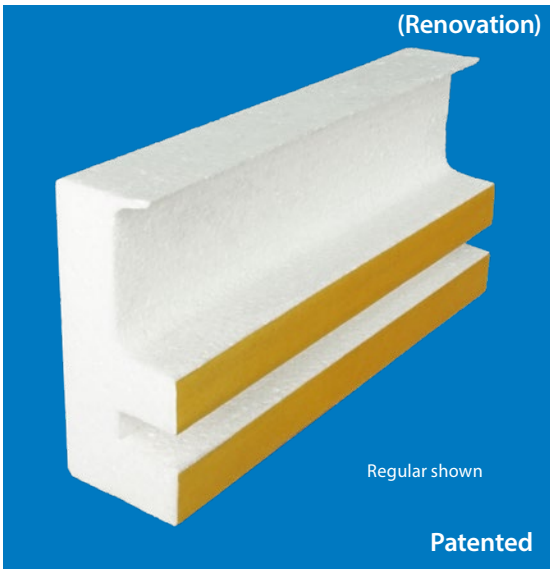
Capstone Tie Wire w/ Plumb Strip	9CF912	9CF922
Capstone Tie Wire w/ Plumb Strip Flex	9CF912-FLEX	9CF922-FLEX

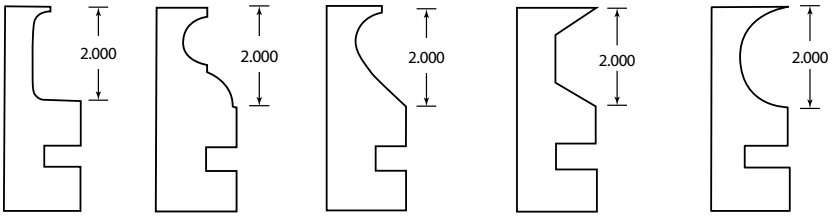
"FLEX" PLUMB STRIP allows for easy application on free formed pools.

RENOVATION FORMS

This form is used in remodel applications to replace out-of-date "old fashioned" coping stones. After removing the old coping, Renovation Forms attach to the ceramic tile using double faced tape (Tie Wires are included for extra support). These forms are also used in forming cast-on-site concrete countertops.





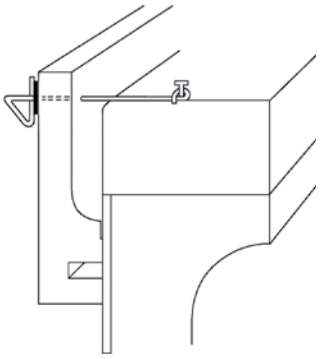


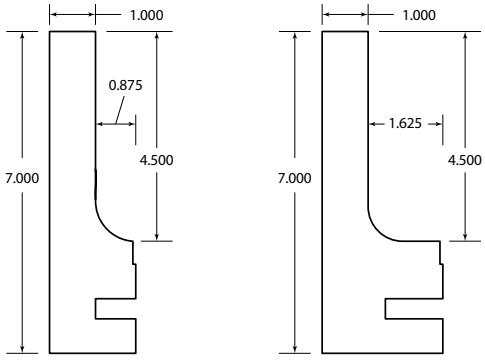
DESCRIPTION	Regular	OG	Capstone	Diamond Cut	Marble Round
PART #	5CF512	5CF612	5CF112	5CF812	5CF712

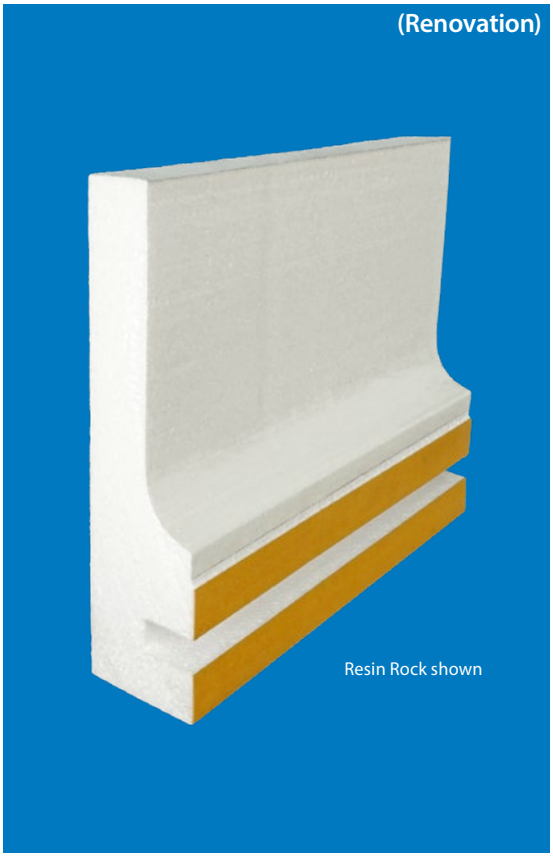
CARTON INCLUDES:
- 112' RENOVATION FORMS
- 1 TIE WIRE SIDE KIT

RESIN ROCK AND DEEP RESIN ROCK

This form is designed to be used when applying resin overlays to existing cantilever decks. The forms are lined with tape to prevent the solvent based overlays from dissolving the foam and to leave a smooth surface when removed.







DESCRIPTION	RESIN ROCK	DEEP RESIN ROCK
PART #	15CF999L	11CF999L

CARTON INCLUDES:
- 112' RESIN ROCK FORM
- 1 TIE WIRE SIDE KIT

CARTON INCLUDES:
- 112' DEEP RESIN ROCK FORM
- 1 TIE WIRE SIDE KIT

FOAM PROFILE EDGING TOOLS

Finishing or touching-up a Cantilever edge, Step Liner or Wall Cap profile is much easier now that we offer disposable Foam Profile Edging Tools.

This tape-on-form design provides a clean finishing surface that flexes with the foam allowing you to finish without leaving "chatter marks".

Foam Profile Edging Tools are available to fit the following shapes:

TILE LEDGER BOARD

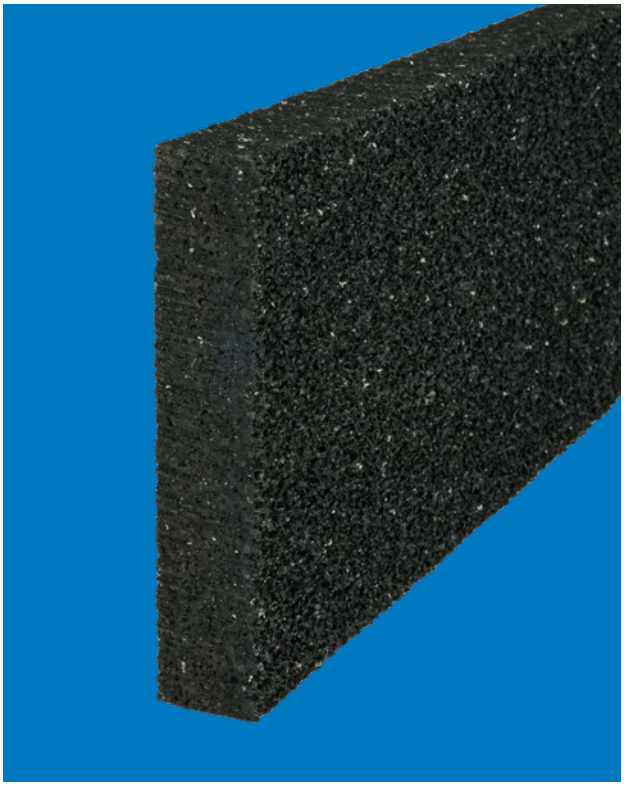
Tile Ledger Board is a reusable system that is used in setting perimeter tile on inground concrete pools. Because this product can be used for an entire season and more, Tile Ledger Board can be considered a "tool" rather than a material that has to be continuously reordered like other ledger materials.

- **REUSABLE**
- **NAIL HOLES** (pre-drilled)
- **FLEXIBLE YET RIGID**

Part# TLB-001

CARTON INCLUDES:

- PACKAGED 40' PER CARTON (Size: 1" x 4" x 4')



Pre-drilled nail holes are spaced 12" on center.

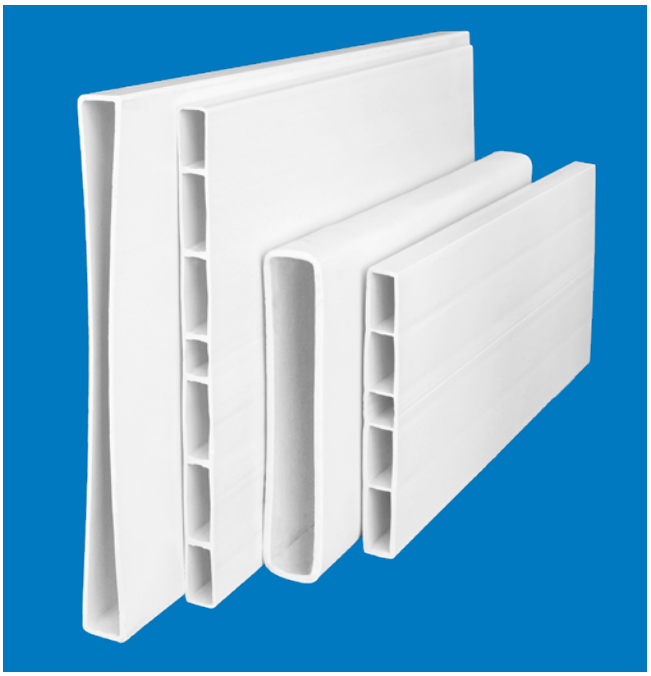
Tile Ledger Board conforms to virtually any radius.

SLIP-N-JOIN LUMBER

Slip-N-Join Lumber is a reusable synthetic forming material that's ideal for producing free-form concrete designs that win awards in the swimming pool as well as the landscaping industry.

ECONOMY: Slip-N-Join Lumber, unlike plywood or masonite, is reusable making it more economical with each job. A light oil film is necessary for the first two uses.

TIME SAVING: Your forming crew will find Slip-N-Join Lumber a lightweight and easy to work with material. Less grade marks are necessary, as Slip-N-Join Lumber does not warp and tends to find its own elevation. The forms are connected by simply plugging into the couplers, eliminating the need for time-consuming splicing.



DESCRIPTION	PART #	SPECIFICATIONS	CONTENTS
Slip-N-Join Lumber (includes 12 couplers)	MS007	3/8" x 3-1/2" x 12'	144' per carton – 12' lengths

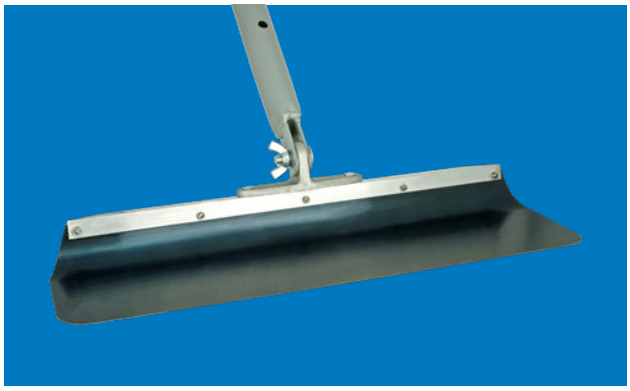
FRONTIER DESERT DECK WALKING TROWEL

This tool features a limber blade that is ideal for texturing Frontier Desert Deck. The texture is applied by lowering to the surface and applying a pulling motion. When attached to an extension handle, this tool extends the finishers reach up to 20 ft.

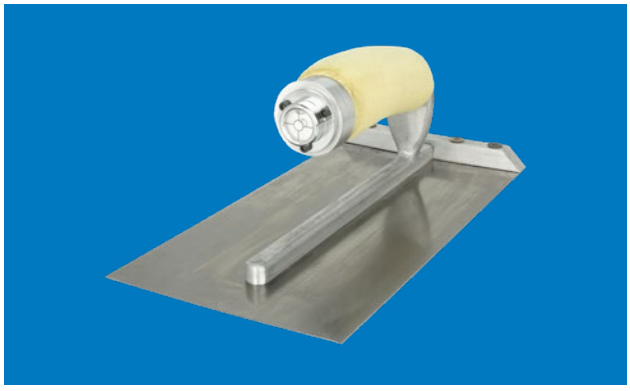


DESCRIPTION	PART #
18"	TL003
24"	TL004

PACKAGED 1 PER CARTON

TILE TROWEL WITH LEVEL

This trowel is designed to be used in applying the bed mud to the top edge of a pool wall in preparation for setting the perimeter tile on a Gunite pool. The handle mounted level allows the applicator to apply a true vertical surface while being positioned above the wall, avoiding the use of time consuming scaffolding. This specialty tool is popular with many production-minded tile contractors.



PART #
TS010

PACKAGED 1 PER CARTON

DUAL WALKING EDGER

This specialty tool edges the concrete on both sides of a control joint while wiping the top clean.

PART #

CHAMFER CLIPS

Vertical Surface Detail Molds (Wall Caps, Pool Forms, Step Liners)

Chamfer Clips are used to continue a deep jointer mark over the edge of the most detailed Stegmeier vertical surfaces. These reusable molds are pinned to the inside of the form with nails, painted with release agent (included) and are removed when the forms are stripped so the edge is ready to finish.

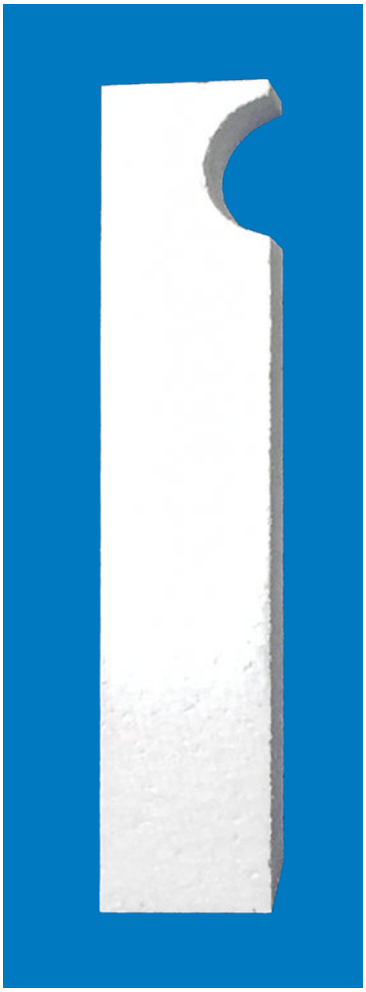
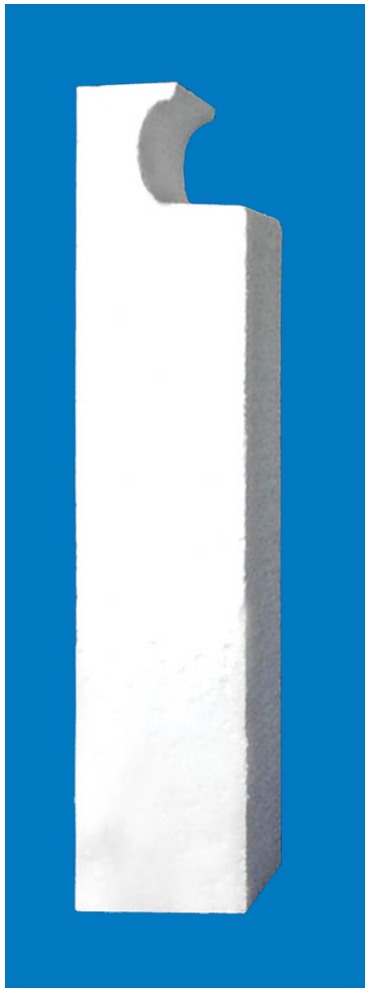
BACKSPLASH FORMS

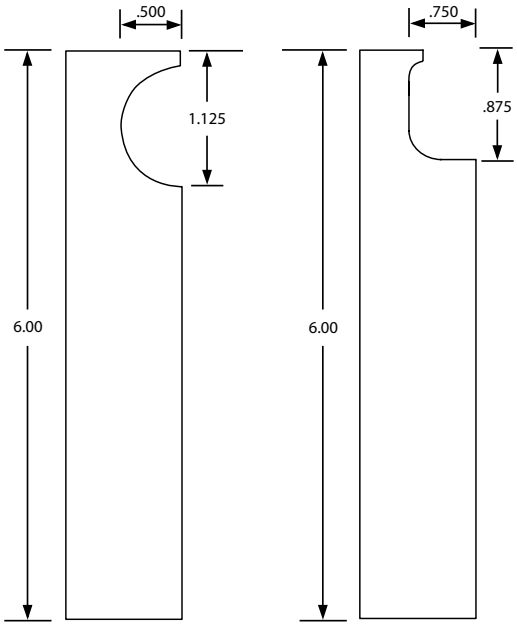
For poured in place Concrete Backsplashes

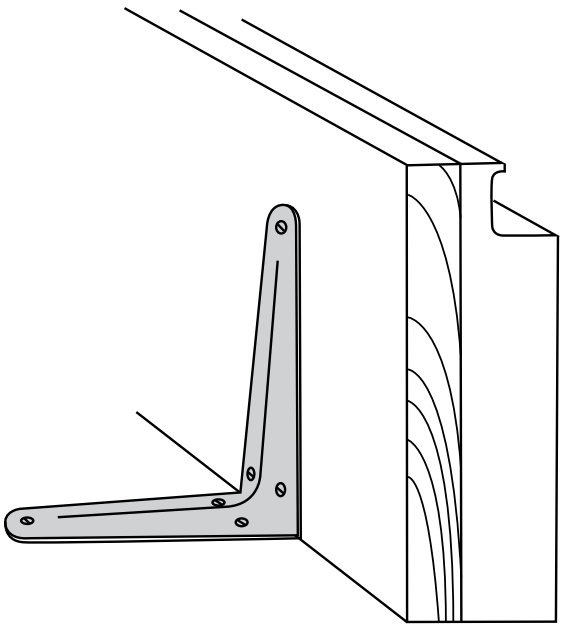
Now you can have "poured in place" backsplashes. Just attach a Backsplash Form to a six-inch piece of lumber using spray adhesive and fasten the lumber to the wood deck using six-inch shelving brackets. Then adjust the backsplash to desired depth.





NOTE: Pour before Countertop



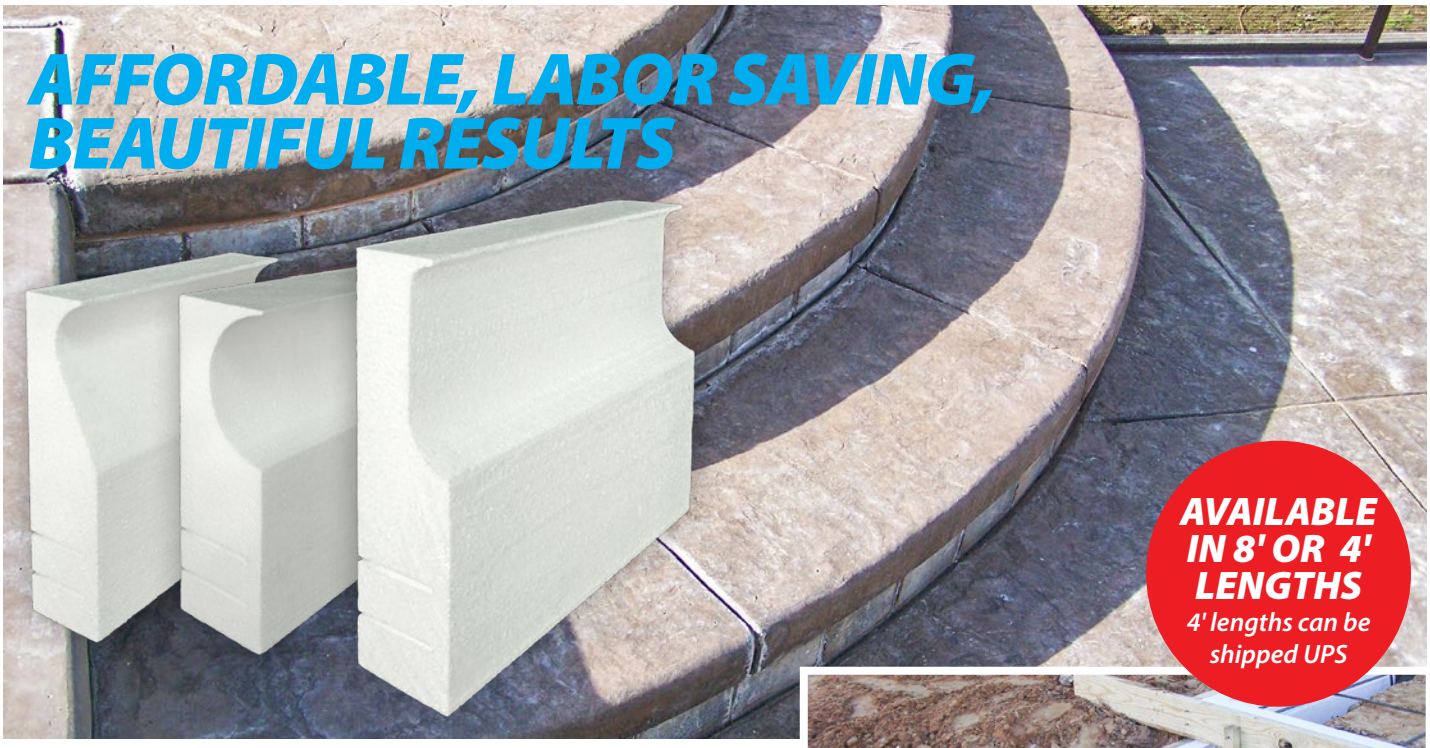


DESCRIPTION	MARBLE ROUND	REGULAR
PART #	BS-32-MR	BS-32-RG

CARTON INCLUDES:

- 32' BACKSPLASH FORMS

STEP LINERS



Step Liners are a flexible foam step liner used to produce architectural profiles when pouring concrete steps. These labor saving forms are attached to the inside of the wood forms using spray adhesive or nails. Radius steps may be formed by attaching Step Liners to Slip-N-Join Lumber (a reusable plastic bender board by Stegmeier LLC). Break-away slots allow for three (3) riser heights. Step Liners may be stripped and finished much earlier than conventional forms.

Use spray adhesive or nails to attach.

Foam Profile Tools Available.

FRONTIER POLI-VOID

Flexible Expansion Joint Material System

Frontier Poli-Void by Stegmeier LLC is available in three heights: 1-1/2", 3" and 4" with 3/8" perforated tear strip.

COMPRESSION, psi
at 10% deflection - less than 10
at 80% deflection - less than 125

MOISTURE VAPOR PERMEABILITY
perm inches - less than 0.4

WATER ABSORPTION
% volume - less than 0.5

DENSITY
Pounds/ft. 3 - 2.4 - 2.8

TEMPERATURE STABILITY
-18° to 150°

FRONTIER POLI-VOID INSTRUCTIONS:
To determine the size needed, check the coping. If you have just the depth of the coping, use the one and one-half inch. If the bond beam is notched or goes straight down from the bottom of the coping, use the three inch.

With the 3/8" tear strip in an upward position, apply spray adhesive one-half inch below the tear strip section so as not to interfere with the bonding of the joint sealant. The concrete is poured to the opposite side and edged with 1/4" edger. The deck (surface) should be allowed to cure before the 3/8" tear strip is removed and the Boss Joint Sealant is applied.

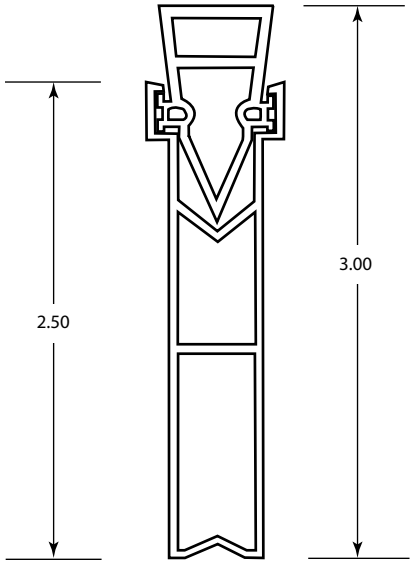
RIGID HOLD

When preset expansions are the answer.

Rigid Hold is a full-expansion base that is used in presetting either Frontier Deck Joint or Rigid Deck Joint. With expansion joint snapped in place, Rigid Hold measures a full three inches in height.

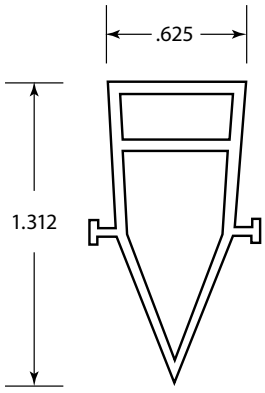


Joint not included

PART#	RJH2

PACKAGED 240' PER CARTON IN 12' LENGTHS

FRONTIER DECK JOINT



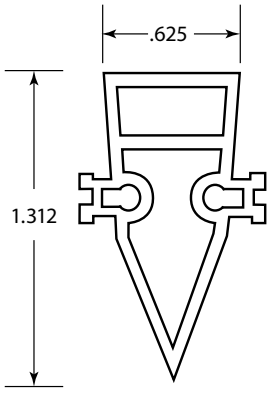
Frontier Deck Joint provides the necessary crack control, but not so deep as to interfere with steel placement. In addition to control, it adds a beautiful finished look. It is cost effective, durable and easy to install. With the "T" member ears embedded in concrete, surface water seepage is kept from subsoil.

DESCRIPTION	PART #
Black	SDJIB
Grey	SDJIG
Tan	SDJIT
White	SDJIW

PACKAGED 240' PER CASE IN 12' LENGTHS WITH PROTECTIVE TAPE ON TOP

For full expansion joint control, use with Rigid Hold.

RIGID DECK JOINT



Rigid PVC control joint to be used in exterior patios, driveways, pool decks or wherever less flexibility is desired to assure straight lines in decking. The 5/8" x 1-5/16" control joint is deep enough to produce required crack control, but not so deep as to interfere with steel placement.

DESCRIPTION	PART #
Black	RDJIB
Grey	RDJIG
Tan	RDJIT
White	RDJIW

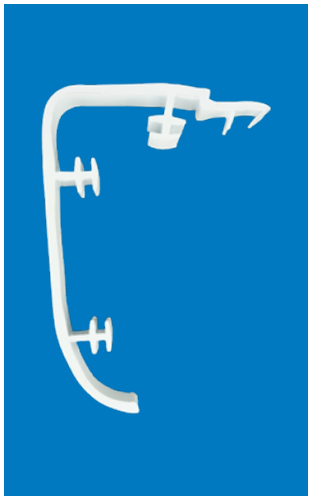
PACKAGED 240' PER CASE IN 12' LENGTHS WITH PROTECTIVE TAPE ON TOP

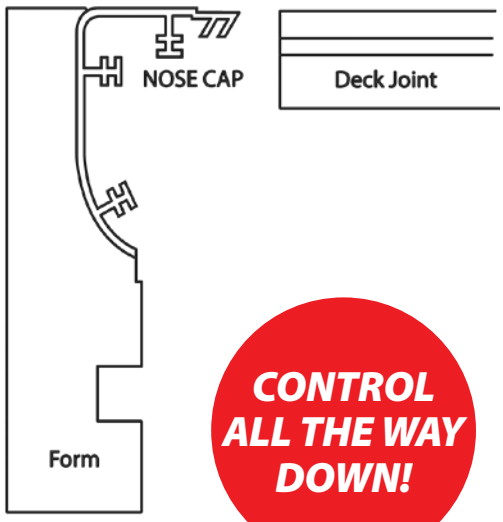
For full expansion joint control, use with Rigid Hold.

FRONTIER NOSE CAPS

Control the joint all the way down

Frontier Nose Caps are designed to allow the control joint to run smoothly down the face to the tile or pool wall.





CONTROL ALL THE WAY DOWN!

Peel the paper off the tape. Press the nose cap to the form where you would like a joint. Insert the nose cap flange into the Deck Joint.

DECK DRAIN

Stegmeier LLC Deck Drain is an extruded PVC drain that comes with connecting couplers and is designed to be set level. This drain is commonly used in pool decks, patios and other pedestrian traffic areas. Deck Drain is easy to install by staking on grade (no trenching required) and has a full .100" thickness top for durability.

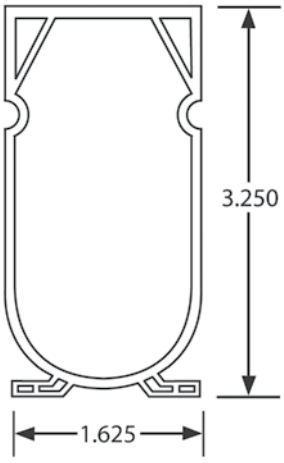
DESCRIPTION		PART #
White	*	D2W
Grey	*	D2G
Tan	*	D2T
Black	*	D2B

THIS DRAIN IS PACKAGED IN 10' LENGTHS WITH PROTECTIVE TAPE ON THE TOP SURFACE.

* Maximum Flow Rate: 7.3 gal. per minute per foot.

CARTON INCLUDES:

- 8 10' DECK DRAIN
- 8 COUPLERS
- 4 END ADAPTERS



A full range of fittings are available. See Page 34.

CHANNEL DRAIN

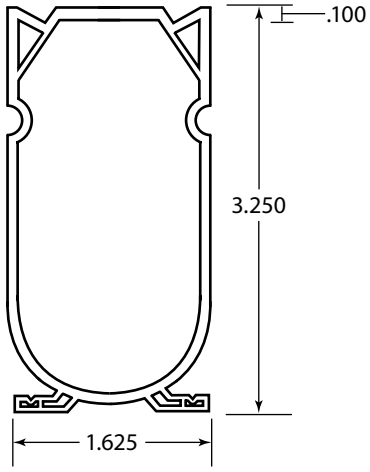
Channel Drain has an attractive dual channel top that reduces water pass-over. Channel Drain is an extruded PVC drain that comes with connecting couplers and is designed to be set level. This drain is commonly used in pool decks, patios and other pedestrian traffic areas. Channel Drain is easy to install by staking on grade (no trenching required) and has a full .100" thickness top for durability.

DESCRIPTION		PART #
White	*	CD3W
Grey	*	CD3G
Tan	*	CD3T
Black	*	CD3B

THIS DRAIN IS PACKAGED IN 10' LENGTHS WITH PROTECTIVE TAPE ON THE TOP SURFACE.

* Maximum Flow Rate: 8.1 gal. per minute per foot.

CARTON INCLUDES:
- 8 10' CHANNEL DRAIN
- 8 COUPLERS
- 4 END ADAPTERS



A full range of fittings are available. See Page 34.

SUPER DRAIN

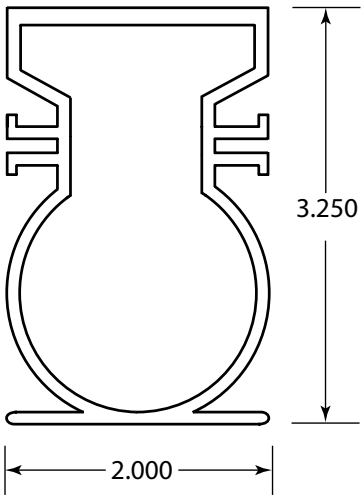
Super Drain is a technically superior round drain designed for maximum flow capacity, durability and ease of installation. Super Drain features a nailing guide which also acts as a true water seal against moisture transfer to the subsoil. A full range of non-directional fittings, adapters and end clips are available. Because Super Drain fits flush on both sides, it stakes more securely (no more roll over).

DESCRIPTION		PART #
Grey	*	SRG
Tan	*	SRT
White	*	SRW

THIS DRAIN IS PACKAGED IN 10' LENGTHS WITH PROTECTIVE TAPE ON THE TOP SURFACE.

* Maximum Flow Rate: 8.8 gal. per minute per foot.

CARTON INCLUDES:
- 8 10' SUPER DRAIN
- 8 COUPLERS
- 4 END ADAPTERS



A full range of fittings are available. See Page 35.

FRONTIER DECK DRAIN

Removable Top Drain

Frontier Deck Drain is a removable top drain that features a double-wall base and snap-in top (PVC). When installing this drain, the tops are staggered past the joints making the joints very rigid. Because the tops are removable, this drain is easy to clean and the tops can be replaced if ever damaged. Frontier Deck Drain is used in many residential and commercial swimming pools, patios and other pedestrian areas.

CARTON INCLUDES:
- 8 10' BASE
- 8 10' TOP CAP
- 8 COUPLERS
- 4 END ADAPTERS

A full range of fittings are available. See Page 36.

THIS DRAIN IS PACKAGED 80' PER CARTON IN 10' LENGTHS WITH PROTECTIVE TAPE ON THE TOP SURFACE.

This drain is not designed to be used as a full expansion. Stegmeier LLC requires that a Drain Dowel be placed every 36", midway in the drain to prevent damage due to concrete deck movement.

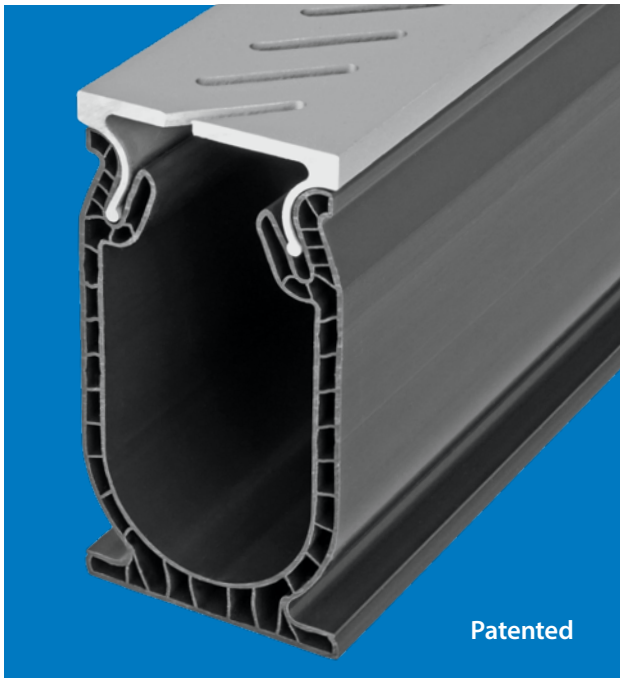
TREADMASTER COMMERCIAL

Aluminum Top Drain

Treadmaster Commercial Deck Drain is a removable top drain that features an Aluminum top. This product also features a double-wall base and a snap-in top. When installing this drain the tops are staggered past the joints making the joints very rigid. Because the Aluminum tops are removable, this drain is easy to clean and the tops can be replaced if ever damaged. Treadmaster Commercial is used on many commercial swimming pools, fitness centers and other pedestrian traffic areas.



CARTON INCLUDES:
- 1 10' ALUMINUM TOP CAP
- 1 10' BASE
- 1 COUPLER

A full range of fittings are available. See Page 36.

See page 45 for Installation Drain Dowels.

This drain is not designed to be used as a full expansion. Stegmeier LLC requires that a Drain Dowel be placed every 36", midway in the drain to prevent damage due to concrete deck movement.

CARTON INCLUDES:
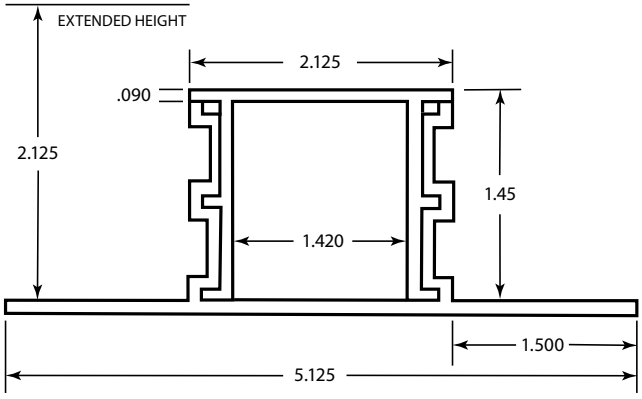
- 8 10' BASE
- 8 10' TOP CAPS
- 8 COUPLERS

Aluminum top drains are recommended in high temperature surface areas or excessive reflective surface areas around windows, doors, etc.

PAVER DRAIN A/T

Paver Drain A/T is a dual-elevation deck drain system with an aluminum top cap used for installation of paver decks.

A full range of fittings are available. See Page 35.



DESCRIPTION	PART #
Clear *	PD-ATC
Clear (without base)	PD-ATC-NB

* Maximum Flow Rate
5.8 gal - High
3.7 gal - Low
per minute per foot

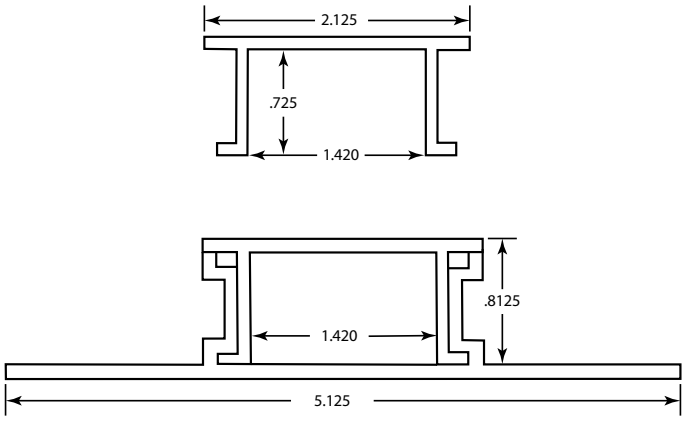
CARTON INCLUDES:
- 1 10' BASE
- 1 10' TOP CAP
- 1 COUPLER

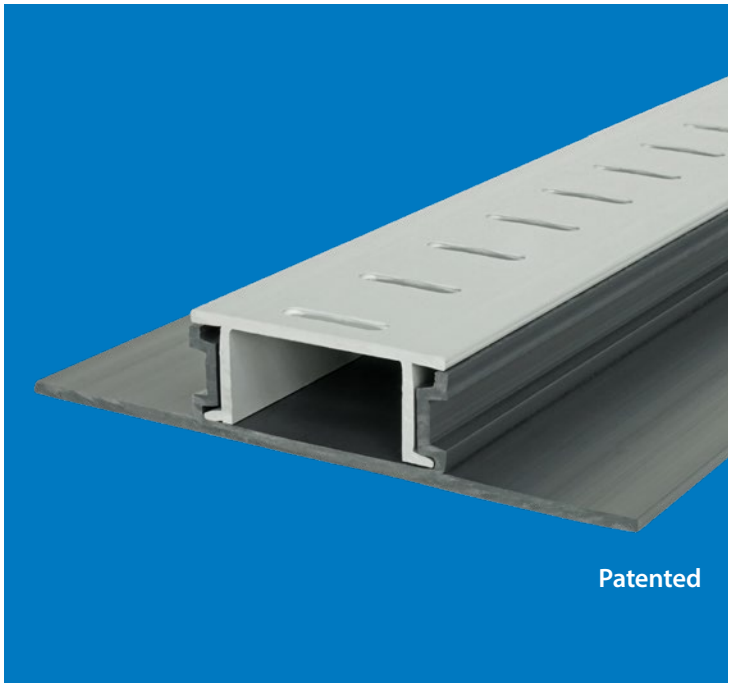
Aluminum top drains are recommended in high temperature surface areas or excessive reflective surface areas around windows, doors, etc.

MINI PAVER DRAIN

The Mini Paver Drain is designed to be used when 1" thick pavers are installed on an existing surface. The extended base goes under the surrounding pavers to ensure a stable installation.

A full range of fittings are available. See Page 35.





DESCRIPTION	GREY	MARBLE	TAN	WHITE
Mini Paver Drain *	MP2G	MP2M	MP2T	MP2W

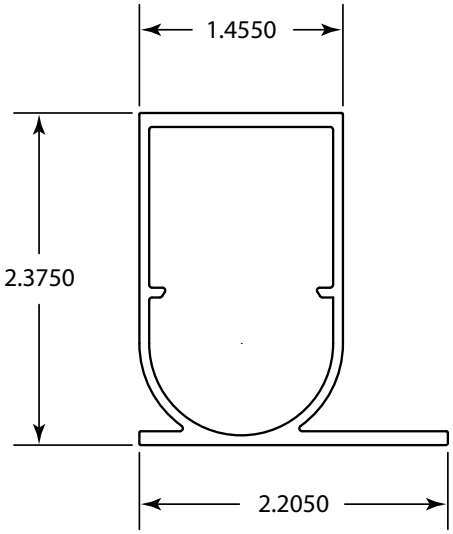
* Maximum Flow Rate: 1.7 gal. per minute per foot.

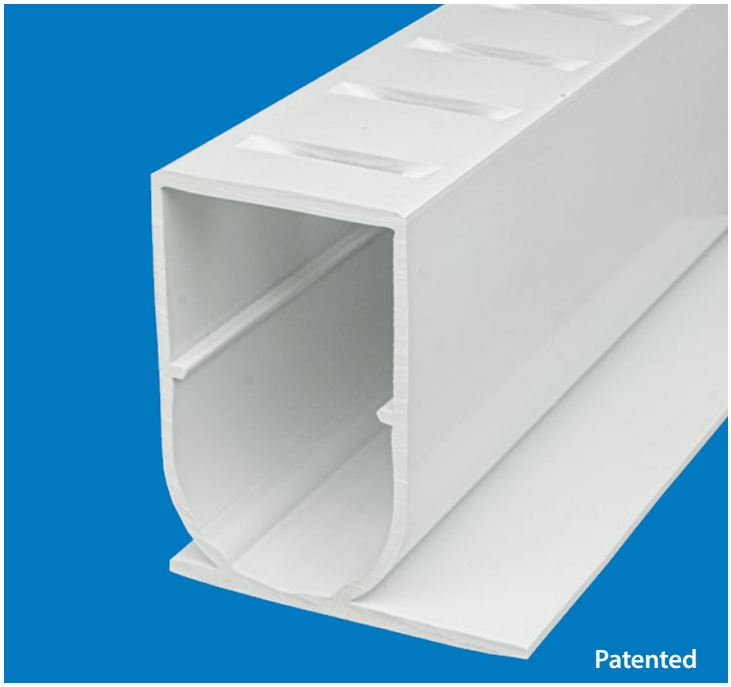
CARTON INCLUDES:
- 8 10' BASE
- 8 10' TOP CAPS
- 8 COUPLERS

PAVER DRAIN PRO

Paver Drain Pro is a one-piece PVC extruded drain designed to provide surface water drainage on paver decks. This drain accommodates most 60mm or 2 3/8" pavers.

A full range of fittings are available. See page 35.





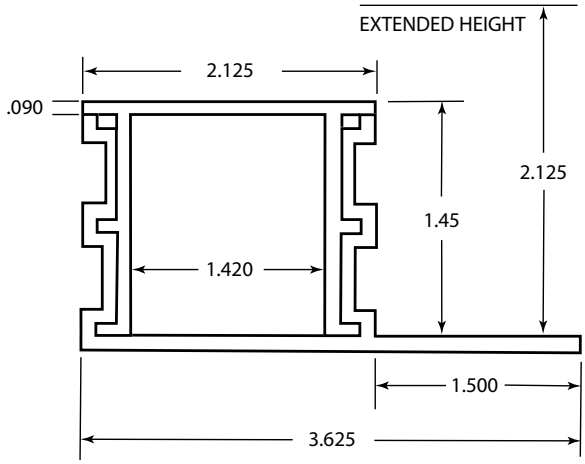
DESCRIPTION	WHITE	GREY	TAN
Paver Drain Pro	PD-PRO-W	PD-PRO-G	PD-PRO-T

CARTON INCLUDES:
- 8 10' PAVER DRAIN PRO
- 8 COUPLERS

FLUSH MOUNT PAVER DRAIN

The Flush Mount Paver Drain is a dual-elevation deck drain system used for the installation of paver decks. This design features a top cap that can be lapped through the sectional base insuring a rigid configuration. The bottom tray of the base section features a single flange design that allows this drain to set flush against a vertical surface such as a wall.

A full range of fittings are available. See page 35.



DESCRIPTION	GREY	MARBLE	TAN	WHITE
Flush Mount Paver Drain *	FLMPD-G	FLMPD-M	FLMPD-T	FLMPD-W

* Maximum Flow Rate
5.8 gal - High

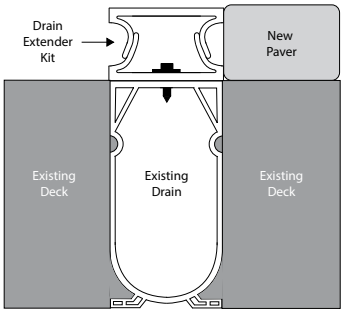
DRAIN EXTENDER KIT

Drain Extender Kit is used when it is necessary to raise the elevation of an existing drain in preparation for the installation of Pavers or Overlays.

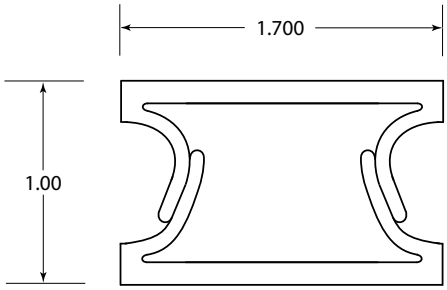
The Drain Extender Kit is used in many applications to increase the height of an existing drain. It is attached base clip first to an existing drain with the screws provided and the top is "snapped" into place. Both the top and bottom pieces of the Drain Extender Kit have slots in them to allow the water to pass through to the existing drain, leaving behind a beautiful new drain.



DESCRIPTION	PART #
White	DEK40W
Grey	DEK40G
Tan	DEK40T
Black	DEK40B

PACKAGED 40' PER CARTON IN 5' LENGTHS

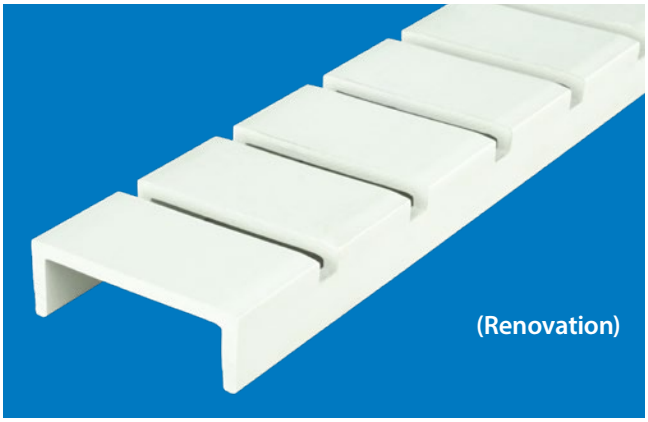
CARTON INCLUDES:
- 8 5' EXTENDER DRAIN
- 48 BASE CLIPS
- 48 SCREWS



RE-COVER DRAIN

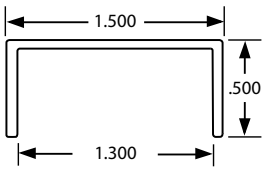
Replacement top used to repair damaged deck drain.

Re-Cover Drains are designed with continuous side-to-side slots, allowing water to enter from either side at the original elevation. This important feature prevents ponding and subsequent freeze and thaw damage.



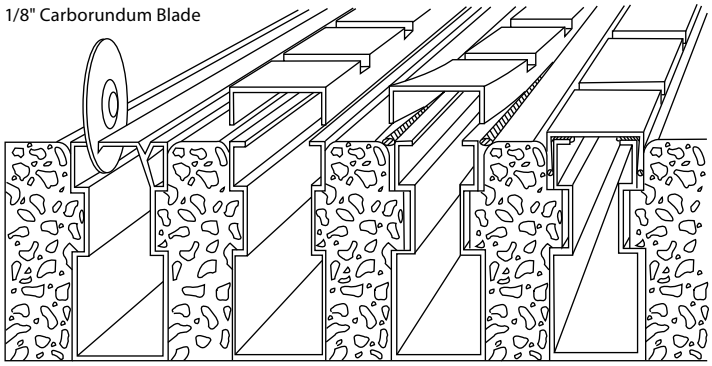
DESCRIPTION	PART #
White	RD2W
Grey	RD2G
Tan	RD2T
Black	RD2B

PACKAGED 80' PER CARTON IN 10' LENGTHS



INSTALLATION TIPS

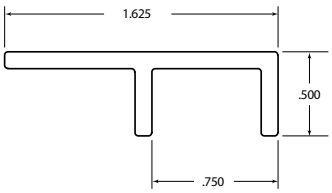
Using a 1/8" carborundum or diamond blade, make two parallel cuts removing the center of the damaged deck drain. Apply a continuous bead of silicone into the crack between the side walls of the existing drain and the concrete. Press the Re-Cover Drain into the silicone filled slot. Place a weight on top of the Re-Cover Drain to hold it securely in place until the silicone cures (if necessary).

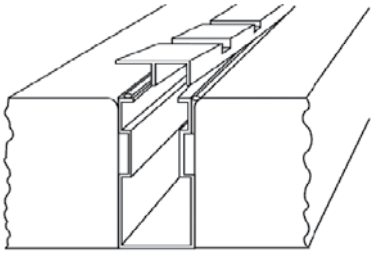


RE-COVER DRAIN II

Designed to repair drains that are pinched due to deck movement.

Re-Cover Drain II is attached at one side only, allowing the drain cover to be successfully applied to drains that are distorted due to damage from deck movement. This "free floating" design makes this product adaptable to various drain widths.





DESCRIPTION	PART #
White	RD2W-2

PACKAGED 240' PER CARTON, 12' LENGTHS

DECK RENEW

Restore deck surfaces to a like-new appearance

Deck Renew is available in 10 shades. This finish tends to retain the highlights in textured surfaces.

Many concrete decks and patios, although still structurally sound, are in need of a facelift. Deck Renew can restore these decks to a like-new appearance, avoiding the need for costly demolition and reconstruction.

Deck Renew is applied using two diluted coats. The first coat soaks in, providing a positive bond while the second coat adds extra wearability.

As conditions and methods of use of our products are beyond our control, we offer these products in good faith but without guarantee either expressed or implied.

FRONTIER BONDING AGENT

Frontier Bonding Agent is a three-stage bonding system used to apply cementitious toppings to existing concrete. The primary coat penetrates into the concrete leaving a completely insoluble membrane once the liquids have evaporated. The second coat is applied after the first coat has dried and effectively seals the surface of the concrete, protecting against uneven suction from the base concrete. The third coat **MUST** be applied to re-wet (or freshen) the surface just prior to applying the topping.

DESCRIPTION	PART #
1 Gallon	FRBA1
5 Gallon	FRBA5

COVERAGE:
APPROX. 200 SQ. FT. PER GALLON ON FIRST COAT,
300 SQ. FT. PER GALLON ON SECOND COAT

FRONTIER DESERT SEAL

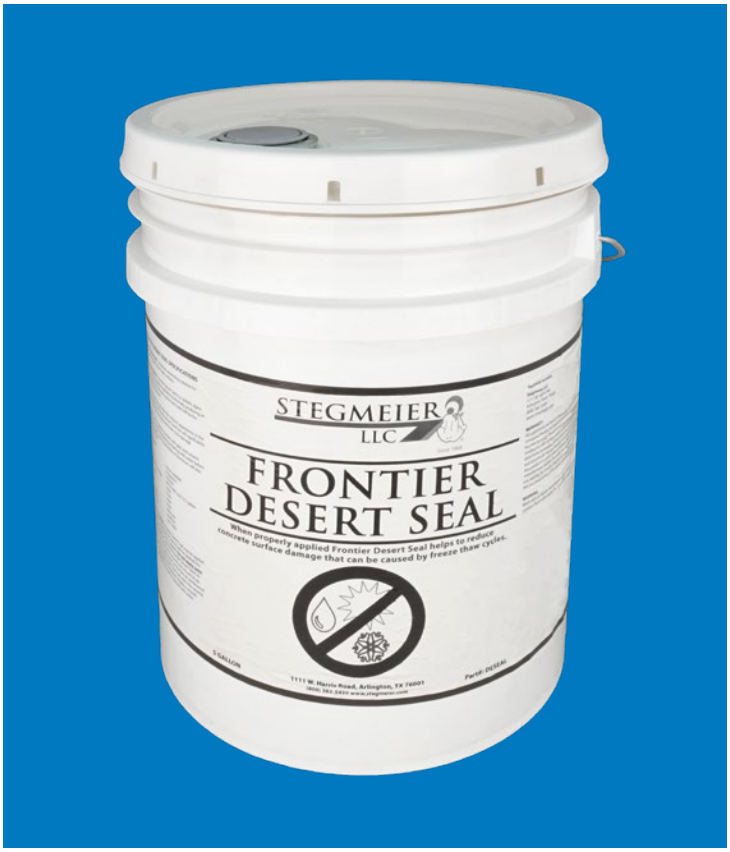
Protects Concrete From Freeze/Thaw

Frontier Desert Seal — a colorless, penetrating solution for concrete and Frontier Desert Deck surfaces.

Frontier Desert Seal is a catalytic agent which reacts with free alkaline hydrates by internally producing an aero silica gel which fills the pore spaces and voids left by the evaporative loss of moisture. Frontier Desert Seal does not alter the surface's appearance or physical characteristics of Frontier Desert Deck, but will significantly protect concrete from damage caused by the freeze/thaw cycle.

DESCRIPTION	PART #
5 Gallon	DESEAL

COVERAGE:
APPROX. 300-400 SQ. FT. PER GALLON



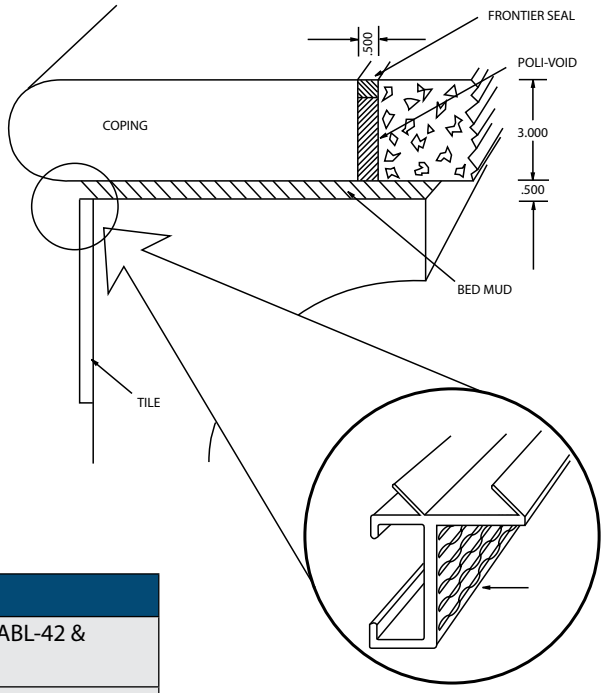
FIBER-OPTIC II RECEIVER

Install fiber-optics on your coping or stone work

INSTRUCTIONS

1. Position Fiber-Optic II Receiver on tile with 3M adhesive.
2. Set coping or stone into place.
3. Attach Poli-Void to coping or stone with spray adhesive and pour deck.
4. After deck has cured remove Poli-Void tear strip and apply Boss Joint Sealant.

NOTE: On tight radii cut the front and back lips of the receiver.



PART #	DESCRIPTION

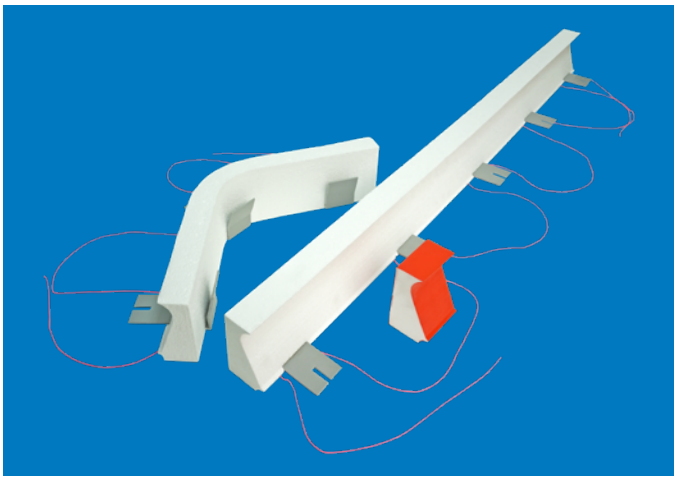
CARTON INCLUDES:

- 112' PER CARTON 8' LENGTHS (Flex Track is also available)
- 1 5 OZ. TUBE OF 3M ADHESIVE

CANTILEVER STEP KIT

Forming system used to install Cantilever edges on molded, preformed steps. (Liner)

The Cantilever Step Kit attaches mechanically to the top flat surface of the molded, preformed step. This unique design adapts to virtually any preformed step application.



STANDARD STEP KIT INCLUDES:

- 3 4' STRAIGHT PIECES WITH CLIPS
- 2 PREFORMED CORNERS WITH CLIPS
- 1 48" AND 2 EACH 36" BRACES
- 25 SCREWS AND WASHERS
- 25 TIE WIRES
- 1 PROFILE EDGING TOOL
- 1 ROLL BENDING TAPE

RADIUS STEP KIT FOR RADIUS STEPS (No Corners):

- 5 4' STRAIGHT PIECES
- 50 SCREWS
- 50 WASHERS
- 50 TIE WIRES
- 1 PROFILE EDGING TOOL
- 1 ROLL BENDING TAPE

RADIUS STEP KIT for radius steps (No corners)	1CSK24-STR	9CSK24-STR	2CSK24-STR

S-CLIP

Liner Receptor used on Above Ground Liner Pools

Stegmeier's S-Clip has a heavier gauge liner bead receiver that resists liner roll-out. This heavy-duty extrusion slips down over the top of the pool wall adding rigidity while holding the liner bead firmly in place. With this design, the stabilizer bar may be clipped over the top of the S-Clip instead of being threaded from the end.

- **Heavy-Duty Design**
- **Stabilizer Bar May Be Clipped Over**
- **UV-Resistant Material**
- **53-Inch Lengths**

DESCRIPTION	PART #
S-Clip	SCLIP

PACKAGED 40 PIECES PER CARTON

TIE WIRE SIDE KIT

The Tie Wire Side Kit is designed to attach Stegmeier LLC forms to the pool wall. Place the plastic washer on the tie wire and push the tie wire through the form at the proper elevation. Wrap the tie wire around the 1 1/2" concrete nail to secure.

CARTON INCLUDES:
- 100 TIE WIRES
- 100 PLASTIC WASHERS
- 100 1 1/2" CONCRETE NAILS
- 1 ROLL OF BENDING TAPE

DESCRIPTION	PART #
Tie Wire Side Kit (1 per carton)	CFA001-SINGLE
Tie Wire Side Kit (5 per carton)	CFA001

PLUMB STRIP SIDE KIT

The Plumb Strip Side Kit is designed to attach Stegmeier LLC forms to a fiberglass pool. Place the plastic washer on the tie wire and push the tie wire through the form at the proper elevation. Wrap the tie wire around the screw or bend over the back edge of the pool lip to secure.

CARTON INCLUDES:
- 100 TIE WIRES
- 100 PLASTIC WASHERS
- 200 SCREWS
- 1 ROLL OF BENDING TAPE

DESCRIPTION	PART #
Plumb Strip Side Kit	CFA050

PACKAGED 1 PER CARTON

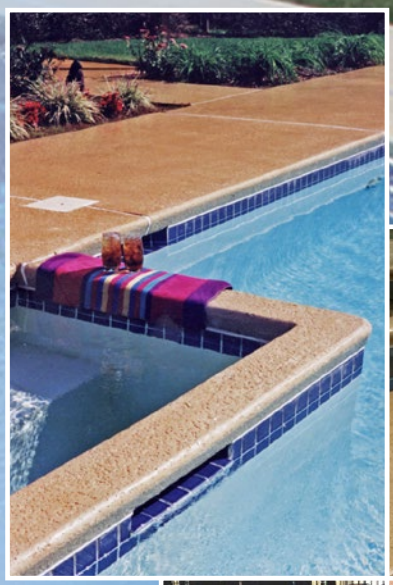
STEGMEIER LLC

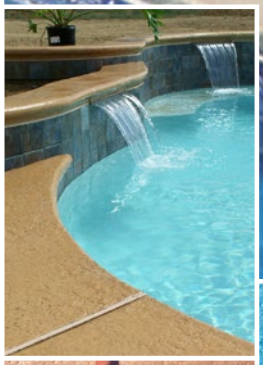
Frontier Desert Deck

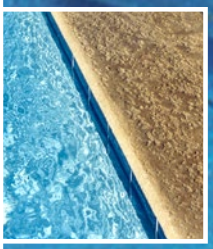
Is an additive, available in 14 pastel colors that when mixed with marble sand and white cement and applied properly, produces a "Dash Finish" that is ideal for residential and commercial swimming pool decks.

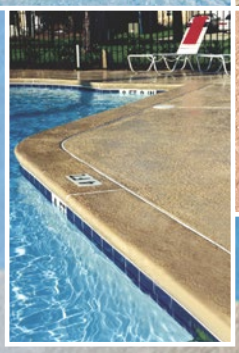
Reduce the temperature of your deck

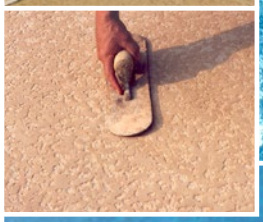
Available in 14 colors











Coolness

Because of the pastel shades, texture and marble sand, Frontier Desert Deck is noticeably cooler than broom finish concrete.

Safety

When applied properly, Frontier Desert Deck retains a non skid quality even when wet.

FD170C	Burly Wood

Packaged: 8 units per carton

This finish tends to retain the highlights in textured surfaces. Covers approx. 250-300 square feet per unit.

Color chips represent flat sheen. Color chips are affected to some degree by the type of light in which they are viewed, exposure to heat, sunlight and also the age of the chip itself. Occasionally, there may be a slight difference between the color and sheen of the chip shown and the actual Frontier Desert Deck surface. Darker shades produce warmer temperatures.
