The Annual Meeting was called to order by President Joe Gallant of Stan Hillock Well Drilling, Inc. at 12:00 pm with the following present: Susan & Pat Smith of Hansen’s Well Drilling, Inc., Scott Hodgdon of Hodgdon Well Service, Ike Goodwin of Goodwin Well & Water, Ted McLeod of Ted McLeod Inc., Jim Innis of Innis Well Drilling, Frank Hegarty of Hegarty Plumbing and Heating, Trevor Gould of H2O Wet Drilling, Mark Taplin of Williams & Taplin, Mark & Michelle Weeks of Weeks & Sons, Inc., Ross Deschesine of Sunco Pump & Well Drilling and Ed Gallant of Stan Hillock Well Drilling.

A motion made by Ted McLeod and seconded by Mark Taplin to approve the minutes of the January 10, 2015 Annual Meeting was unanimously approved.

A motion made by Mark Weeks and seconded by Ted McLeod to approve the MGWA Annual 2015 Treasurer’s Report was unanimously approved. Frank Hegarty and Scott Hodgdon reviewed the Annual Treasurer’s book and found everything in order.

Old Business: There was a discussion of changing the membership classifications to allow Affiliate and Associate members to serve on the board. Ted McLeod spoke about losing membership and how to keep the MGWA active. Frank Hegarty spoke about the benefits of being a member. A motion made by Ted McLeod and seconded by Susan Smith to draft a change to the by-laws to allow 1/3 of the board to include associate and/or affiliate members was approved 13 to 1. The details will be discussed at the February directors meeting to prepare for a vote at the Spring Demo.

New Business: There was a discussion about the MGWA being an affiliate to the NGWA, which may include some form of insurance. Some Spring Demo topics were discussed, including pump hoist, zone fracking, types of piping to set pumps on, and OSHA regulations on cranes.

Legislative: None.

A motion to nominate the following; for President, Mark Weeks, Vice President, Frank Hegarty, 1 year director (to replace Frank Hegarty), Trevor Gould, 2 year Directors, Ross Deschesine, Scott Hodgdon, and Jim Innis made by Mark Taplin and seconded by Ted McLeod was unanimously approved. Nominations from the floor were opened and hearing none, nominations were closed. A motion by Susan Smith and seconded by Mark Weeks to vote the following slate was unanimously approved; President Mark Weeks, Vice-President Frank Hegarty, Treasurer Susan Smith, Secretary Michelle Weeks, one year director, Trevor Gould and two year Directors, Ross Deschesine and Jim Innis. A motion to adjourn at 12:52 p.m. made by Michelle Weeks and seconded by Ted McLeod was unanimously approved.

The Annual Meeting was unanimously approved. Frank Hegarty and found everything in order.

MGWA Director’s Minutes for Jan. 5

Maine Ground Water Association
Director’s Meeting
January 5, 2016
E.J. Prescott, Inc.
Gardiner, ME

The MGWA Director’s Meeting was called to order by President Mark Weeks at 12:54 p.m. with the following present: Ross Deschaine, Ed Gallant, Joe Gallant, Trevor Gould, Frank Hegarty, Scott Hodgdon, Jim Innis, Ted McLeod, Pat Smith, Susan Smith, Mark Taplin and Michelle Weeks.

A motion by Frank Hegarty and seconded by Trevor Gould to approve the November 2, 2015 Director’s Meeting minutes was unanimously approved.

Treasurers Report: None

Membership Applications: Cindy Killer – Atlantic Water Solutions.

A motion by Frank Hegarty and seconded by Ted McLeod was unanimously approved.

Legislative Committee: There was a discussion about plumber’s rules and how they affect us with regard to tank installation and filter systems. More information will follow.

Old Business: None

New Business: The directors meetings will be held as follows:

- February 2 – Mainely Brews, 1 Post Office Square, Waterville
- March 1
- April 5
- May – Spring Demo (date and place to be determined)
- October 4
- November 1

Please check the website to make sure that your company information is up to date.

A motion to adjourn at 1:15 p.m. made by Ted McLeod and seconded by Mark Weeks and was unanimously approved.

Attend Convention

Pat and Sue Smith attended the delegates meeting at the NGWA Convention in Las Vegas. During that meeting, it was voted to elect two board candidates and on three amendments to the NGWA Code of Regulations bylaws and all three passed. There were approximately 4,900 in attendance for the expo. It was the 10th largest show in history. Membership for the NGWA is up slightly from 2014.

The NGWA Expo for 2016 is December 6-9 in Las Vegas.

Targeted advertising works and this newsletter is seen by potential customers across the state.

There were no Commission meetings in July or September. Any outstanding minutes are available on the MGWA Website at mainegroundwater.org. You will also find the MGWA Treasurer’s 2015 report and the 2014 MGS Well Log Report on the Website.

Because space in the newsletter is sometimes limited, you can check the latest information concerning the business of the Commission and of the MGWA on the MGWA Website at: mainegroundwater.org

The Safe Drinking Water Act: Protecting Drinking Water for Life

The Safe Drinking Water Act (SDWA) was originally passed by Congress in 1974 to protect public health by regulating the nation’s public drinking water supply. The law was amended in 1986 and 1996 and requires many actions to protect drinking water and its sources:

- rivers
- lakes
- reservoirs
- springs
- ground waters

(SDWA does not regulate private wells which serve fewer than 25 individuals.)

More information about the Safe Drinking Water Act

What Does SDWA Do Under the SDWA?

SDWA authorizes EPA to set health-based standards for drinking water to protect against both naturally-occurring and man-made contaminants that may be found in drinking water. EPA, states and water systems then work together to make sure that these standards are met.

Millions of Americans receive quality drinking water everyday from their public water systems, (which may be publicly or privately owned). Nonetheless, drinking water safety cannot be taken for granted. There are a number of threats to drinking water:

- improperly disposed of chemicals;
- animal wastes;
- pesticides;
- human wastes;
- wastes injected deep underground; and
- naturally-occurring substances can also contaminate drinking water.

Likewise, drinking water that is not properly treated or disinfected, or which travels through an improperly maintained distribution system, may also pose a health risk.

Where Does SDWA Apply?

SDWA applies to every public water system in the United States. There are currently more than 160,000 public water systems providing water to almost all Americans at some time in their lives. Originally, SDWA focused primarily on treatment as the means of providing safe drinking water at the tap. The 1996 amendments greatly enhanced the existing law by recognizing the following as important components of safe drinking water:

- source water protection,
- operator training,
- funding for water system improvements and public information.

This approach ensures the quality of drinking water by protecting it from source to tap.

MGWA Asking Customers to Test Water ...

Members of the MGWA are encouraging their customers to test their water whether it be from a spring, a dug well, a drilled well or another source.

Only by testing, can customers be assured a safe drinking water supply that is so important to the health of their family and animals.

Please encourage everyone to get their water tested.

The following Websites can provide further information for your customers and give them resources to better understand the possible problems which can occur and that they will not always be aware of.

There were no Commission meetings in July or September. Any outstanding minutes are available on the MGWA Website at mainegroundwater.org.
Commission Meeting Minutes August 2015

Well Driller’s Meeting
Date: Wednesday, August 12, 2015
Location: 286 Water Street, 1st Floor

Attendees: Commission Members:
Dwight Doughty, Jr., Hydrogeologist, Maine DOT
Joe Gallant, Master Driller.
Daniel Locke, Hydrogeologist, Maine Geological Survey.
David Braley, Hydrogeologist, MeCDC.
Mike Otley, Public Member.
Dana Tuttle, State Plumbing Inspector, Plumbers Examining Board.

Minutes prepared by: David Braley

PROCEEDINGS:

Dwight Doughty - Meeting called to order at 9:06 a.m.

TOPIC: June 2015 Meeting

Motion: Mike motioned to approve the June minutes (no July meeting).
Ike 2nd.
Discussion – None
Vote: Unanimous to approve.

TOPIC: Exam Applications

The following individuals were approved (unanimously) to sit for exams:

Trent Robinson – PI Journeyman – Ike moved, Joe 2nd, unanimous
Anthony O’Connor – PI and WD – Journeyman – Ike moved, Joe 2nd, unanimous

TOPIC: Specialty Well Applications

None

TOPIC: Other Business

The Commission continued discussions with Dana Tuttle from the Plumbers Examining Board regarding overlapping jurisdictions.

David and Dana will work on a draft Memorandum of Understanding that will clarify the work which can be undertaken by a licensed plumber on a pump system and by a licensed pump installer on internal plumbing.

Points of discussion the Boards appear to have agreement on include:

- A plumber’s license is required for the installation of water treatment equipment (Per the Internal Plumbing Code which has been adopted by State Law).
- Internal plumbing begins 2 feet outside a building per the Internal Plumbing Code.
- The MOU will include language that allows pump installers to install inline type filters that don’t include air gaps, back flow prevention, etc.
- Journeyman Plumbers can do pump work, all work on pumps must meet the standards in the Well Drillers and Pump Installers Rules. A Master Plumber must be responsible for the work of a Journeyman.
- Pump Installers can install the water line from the well, the pressure tank and connect to the distribution system. The standards of the Internal Plumbing Code must be met.

TOPIC: Complaints:

None Pending

10:45: Mike motioned to adjourn, 2nd by Joe, approved unanimously.

Next Meeting: September 9, 2015 286 Water Street, Augusta, Maine 9 a.m.

In Memory

Ronald F. Irish, Jr., 49, passed away on Dec. 9, 2015. He was a part of the Irish Well Drilling team of Sebago, Maine for 28 years.

FYI...

Just a note to say thank you and goodbye. I have been putting this newsletter together for almost two decades and it has been fun. Susan Smith and Michelle Weeks will now be gathering your news and “Keeping You in the Flow.” Take Care & God Bless!

Happy Trails! Jody Goodwin

A family business since 1992, located in Central Mass, We are a wholesale supplier and source for Water Well, Environmental, Geothermal, Geotechnical and Construction drilling.

We represent many manufactures and have most everything you could possibly need for your drilling project. Let us help you find what you need!

Commission Minutes for October 2015

Well Driller’s Meeting
Date: Wednesday, October 21, 2015
Location: 286 Water Street, 1st Floor

Attendees:
Commission Members:
Dwight Doughty, Jr., Hydrogeologist, Maine DOT.
Mike Otley, Public Member.
Ike Goodwin, Master Driller.
Frank Hegarty, Master Pump Installer.
Julia Kimball, Commission Clerk.

Legal Counsel: Deanna White, AAG.

Minutes prepared by: Julia Kimball

PROCEEDINGS:

Dwight Doughty - Meeting called to order at 9:00 a.m.

TOPIC: August 2015 Meeting

Motion: Ike motioned to approve the August minutes (no September meeting).
Mike 2nd.

Discussion – None
Vote: Unanimous to approve.

TOPIC: Licensure Application

None pending

TOPIC: Specialty Well Applications

A Specialty Well application was brought before the Commission by Stanley E. Hillock Well Drilling Inc. for a property located at 7 Grandview Point Rd, Windham, ME. The reason for the application is a high potential for salt water intrusion in this area. The leach field setback is 62 ft and tank setback is 42 ft. The well is approved with a minimum of 20 feet of casing and a liner and seals with the bottom seal set above the first freshwater fracture and the top seal inside the casing.

Motion: Ike motioned to accept the application. Frank 2nd.
Vote: Unanimous to approve (Joe did not vote)

TOPIC: Other Business

The Commission continued discussions of the meetings with the Plumber’s Examining Board.

TOPIC: Complaints

The Commission received a complaint concerning a well drilled by John Perry of Clearwater Well Drilling.

After review the Commission accepted the complaint.
The Commission granted authorization to send David Philbrick to the home to inspect the well. Customers and driller will be notified.

Motion: Due to the presence of high e-coli in the well and water quality changes after rain Frank moves that the Commission finds a significant threat to public health.
Joe 2nd.
Vote: Unanimous

TOPIC: Licensure Application

An application for a Master Pump Installer license was discussed. Thomas Ogden is a licensed driller in New Hampshire and Massachusetts. Mr. Ogden did not provide any references and therefore his application is incomplete.

Motion: Frank motioned to deny Thomas Ogden’s Master Pump Installer application.
Ike 2nd.
Vote: Unanimous to deny.

TOPIC: Specialty Well Applications

An application was brought before the Commission located at 62 Berry Rd, Sweden, ME. The reason for the application was for lack of space on property. The leachfield setback is 25 ft and tank setback is 38 ft. The well is approved with 120 feet of casing, a 10 inch hole grouted bottom to top.

Motion: Ike motioned to accept the application.
Frank 2nd.

TOPIC: Other Business

The Commission continued discussions of the meetings with the Plumber’s Examining Board.

Legislative Committee: None

Education Committee: Hydro fracturing and fall protection were some ideas discussed for the Spring Demo.

Nominating Committee: There was a discussion on replacements for directors whose terms are up at the end of this year. Ted is looking into interested parties.

Membership Applications: None

There were no Commission meetings in July or September. Any outstanding minutes are available on the MGWA Website at mainegroundwater.org. You will also find the MGWA Treasurer’s 2015 report and the 2014 MGS Well Log Report on the Website.

Because space in the newsletter is sometimes limited, you can check the latest information concerning the business of the Commission and of the MGWA on the MGWA Website at: mainegroundwater.org

The Safe Drinking Water Act: Protecting Drinking Water for Life

The Safe Drinking Water Act (SDWA) was originally passed by Congress in 1974 to protect public health by regulating the nation’s public drinking water supply. The law was amended in 1986 and 1996 and requires many actions to protect drinking water and its sources:

- rivers
- lakes
- reservoirs
- springs
- ground water wells

(SDWA does not regulate private wells which serve fewer than 25 individuals.)

More information about the Safe Drinking Water Act

What Does EPA Do Under the SDWA?

SDWA authorizes EPA to set health-based standards for drinking water to protect against both naturally-occurring and man-made contaminants that may be found in drinking water. EPA, states and water systems then work together to make sure that these standards are met.

Millions of Americans receive quality drinking water everyday from their public water systems, (which may be publicly or privately owned). Nonetheless, drinking water safety cannot be taken for granted. There are a number of threats to drinking water:

- improperly disposed of chemicals;
- animal wastes;
- pesticides;
- human wastes;
- wastes injected deep underground; and
- naturally-occurring substances can also contaminate drinking water.

Likewise, drinking water that is not properly treated or disinfected, or which travels through an improperly maintained distribution system, may also pose a health risk.

Where Does SDWA Apply?

SDWA applies to every public water system in the United States. There are currently more than 160,000 public water systems providing water to almost all Americans at some time in their lives. Originally, SDWA focused primarily on treatment as the means of providing safe drinking water at the tap. The 1996 amendments greatly enhanced the existing law by recognizing the following as important components of safe drinking water:

- source water protection,
- operator training,
- funding for water system improvements and public information.

This approach ensures the quality of drinking water by protecting it from source to tap.

MGWA Asking Customers to Test Water …

Members of the MGWA are encouraging their customers to test their water whether it be from a spring, a dug well, a drilled well or another source. Only by testing, can customers be assured a safe drinking water supply that is so important to the health of their family and animals.

Please encourage everyone to get their water tested.

The following Websites can provide further information for your customers and give them resources to better understand the possible problems which can occur and that they will not always be aware of.

Attend Convention
Pat and Sue Smith attended the delegates meeting at the NGWA Convention in Las Vegas. During that meeting, it was voted to elect two board candidates and on three amendments to the NGWA Code of Regulations bylaws and all three passed. There were approximately 4,900 in attendance for the expo. It was the 10th largest show in history. Membership for the NGWA is up slightly from 2014.

The NGWA Expo for 2016 is December 6-9 in Las Vegas.

FYI Advertisers
A note to those who have advertising in the MGWA newsletter. We appreciate your business for the past year and would like to remind you that your advertising agreements expired with the December/January issue of the newsletter. If you do not see your advertisement in this newsletter next time, it is because we did not receive your renewal.

To continue your advertising, we ask that you call Susan Smith at 207-839-3293 or email her at info@mainegroundwater.org. You may continue using your previous ad but we ask that you send a new camera ready ad even if using your current ad or send a brand new camera ready ad. We are changing formats and editors and to ensure your ad is what you want, a new one is needed.

For more information, rate quotes, to change your ad or inquire about other available size spaces, please contact Susan at the above email.
