

**CUSTOMER:** Buffalo Builders, Inc.

**PROJECT:** Subway Restaurant at the Monte Carlo Resort and Casino

**LOCATION:** Las Vegas, NV

#### PROJECT SPECS

- 908 sq. ft. of 10' and 12' walls
- Single-door kit
- Additional single-door frame

#### McCain Walls Solutions

- Temporary structure for Subway restaurant
- Adapted walls into a ceiling for lighting and HVAC needs
- Sturdy, smooth surface for Subway signage
- Single-door access to the casino gaming area

## CASE STUDY

McCain Walls have given contractors like Buffalo Builders opportunities to save time and money for their businesses and customers.

Buffalo Builders has used McCain Walls multiple times on several Las Vegas casino renovation projects.

*The McCain Walls system was delivered on time, reduced our overall construction schedule, and installation was easy, quick, and clean. Our owners and customers were very impressed, and we have reused McCain walls several times already, making it very cost effective as well.*

*-Tom Sturgis, Supervisor*

#### PROJECT DETAILS

For this case, McCain Walls were used as a long-term solution for a temporary Subway restaurant while construction of a new Subway restaurant at the Monte Carlo Resort and Casino goes underway.

An interim Subway locale was created using 908 sq. ft. of modular walls of 10' and 12' tall panels, including a single-door kit and single-door frame.

To meet the restaurant's requirements, Buffalo Builders modified McCain Walls by engineering a substrate to incorporate HVAC, electrical, and plumbing. They also applied tile, vinyl, and signage to the surfaces.

Reconfigured wall panels served as ceiling panels that supported lighting and HVAC.

#### END RESULTS

A flexible and versatile modular design proved that McCain Walls could be reused and customized to meet the needs of this unique project.

Buffalo Builders found a solution, making necessary changes during a temporary restaurant build.

While the new Subway restaurant is under construction, the temporary Subway locale will continue to generate revenue.
