

PHOTOGRAPHIC COLLECTION

The Leeds and District Traction Engine Club photographic collection consists of an archive of over 400 photographs with many of these photographs unique to the L&DTEC collection. The three principal subjects are Fairgrounds, Traction Engines and Steam Wagons; although other subjects are included in smaller numbers e.g. motor wagons. Many of the images are more than one hundred years old and consequently the quality of a very small number of images is limited. Where the images are poor, this is indicated in the catalogue, however, the unique nature of the material can render the quality less important than what it represents.

Here are a few examples from our collection.

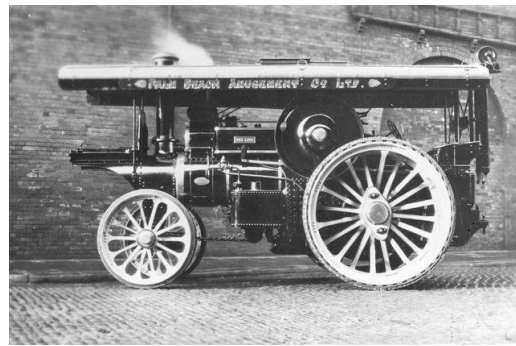

BFS56

A photograph taken at Hull fair circa 1920.

HB10

John Fowler No. 14515 "The Lion"
Palm Beach Amusements Ltd. Wm. Murphy.

PHOTOGRAPHIC COLLECTION

There are three Series of photographs available for sale

List No. 1. B.F.S. Series Nos. B.F.S.I to B.F.S.93

List No. 2. H.B. Series Nos. H.B.I to H.B.316.

All the above are of Fairground and Traction Engine interest and were the property of the late Bert Barker.

List No.3 Y.P. Series Nos Y.P.1 to Y.P.63

Photo's of Yorkshire Patent Steam Wagons

It is important when ordering copies of photos that the correct prefix (B.F.S.- H.B. or Y.P.) is stated.

The details given on the lists are usually all that is known about the negative in question.

The Club cannot guarantee the quality of prints from all negatives as many are over a hundred years old and some are copies from, for example, newspaper articles. Prints which are sold are the best possible from the available negative.

Copies of photographs supplied are of postcard size (approx, 3½" x 5½"). Larger sizes are available on request at proportionally higher prices.

Photographs may be published, provided acknowledgement is given to the Leeds & District Traction Engine Club.
