

UPSTAIRS:

Adults and children must wait upstairs before and during class time. Students will be called down at their class time over the **intercom upstairs and will meet the instructors downstairs at the door by the girls' restroom. No one should be in the hall before students are called down.**

Parents and students standing around in the lobby area and hall are a disturbance and a distraction.

Children are Not allowed to run and tumble upstairs or play on the staircase or bleachers.

We suggest that you bring a game or something for siblings to do while waiting upstairs if they cannot sit quietly for an hour.

Children must be supervised at all times and not be a disturbance to others as a courtesy to all in the observation area.
