

ADA County Composting Facility Tour - Twenty Mile South Farm
May 17th 2018

This 4,225-acre farm receives the biosolids from the City of Boise's two main water renewal facilities, Lander Street and West Boise. In 2014 TMSF received an "Excellence in Biosolids Management" Award from Northwest Biosolids and Pacific Northwest Clean Water Association. The award recognized TMSF for its significant contributions in implementing a cost-effective and environmentally beneficial biosolids management program.
