

# BUENOS AIRES PLEIADES STAR MAP I

The purpose of this illustration is to suggest that the city of Buenos Aires in Argentina has the Cydonia Pleiadian design layout. The 3 main motifs that are the Pleiadian star pyramid City, the Pentagon fortress and the Face of Mars appear to be replicated along the same ley-lines of the waterfront. The Face of Ala-lu corresponds to the Hipodromo de Palermo and is rotated 90 degrees. The Pleiadian Pyramid City outlines the entire Ecological Reserve with 6 main skyscraper hubs along with the English Tower. The layout also construes a pentagram that is inverted from an east-west orientation and is fixated at the Presidential Palace, La Casa Rosada or the Pink House. The apex of the converging 'pyramid' with the pentagram produce a ley-line to the obelisk at the 9th of July Avenue. The base of this 'pyramid' has the Congress building also in direct line to the Presidential Palace. This avenue also matches the ley-line the inverted 'triangle' of Cydonia that produces a hexagram.

The Cydonia, Mars layout apparently is a match as the orientation to the north is the same for Buenos Aires. The template it seems incorporates the main motifs of this Mars construct that according to the esoteric knowledge were built by the Watchers before the Flood of Noah with Humanity and Fallen Angels mixed and perhaps even visited such places like Mars and other planets as the Sumerian cylinder scrolls attest. Tis template is but a remnant of the former days of the Golden of the Atlanteans.

The financial center usually corresponds to the Pleiadian Pyramids, thus towers and skyscrapers. The Banksters are usually also in collusion with the state and church to control the masses through usury.

From the east-west orientation of the 'pyramid' with the Casa Rosada as the apex, the encrypted pentagram construes the classic Luciferian motif of the truncated unfinished 'Tower of Babel'. It is an homage to Nimrod who instilled the religion, economy of the lovers of Mammon whose god is Lucifer, and control all the financial centers of the world

There are actually 6 main hubs or skyscrapers along the waterfront. The Ecological Reserve along with the hub of 6 hub towers make the depiction of the Pleiades motif.

Like in other modern cities, the pyramids are place on top of skyscrapers and churches.
