

Jason Strelaeff – Log Truck Driver

Jason came to A.F. Timber as a skilled log truck driver with 27 years of experience under his belt. He was excited to join the team and in his words, “it’s been year working with the guys and I have yet to have a bad day!” Jason’s favourite part of his job is that there is never a dull moment and that his job changes minute to minute, keeps him on his toes! He enjoys the team atmosphere and the independence of driving the truck somewhere different every day. He is motivated by being out in nature, seeing the million dollar views that other people pay thousands just to get a glimpse of. One highlight of his job is seeing wildlife in their natural habitat.

When Jason is not driving truck you can find him in his yard landscaping, golfing or just spending time with his family.

Jason says it is great to work with the guys, it is a great team! Rolling up on the landing seeing everyone working hard makes this the best job!

Whether he is first on the landing or first at the mill, we can always trust Jason to move the wood.

We are lucky to have him on our A.F. Timber team.
