

Green Parking Lot

JB Fieldworks assisted the Grandmont Rosedale Development Corporation to secure a grant from the Kresge Foundation to develop a Green Parking Lot adjacent to their recently developed community co-working space.

The project was developed in conjunction with the City's desire to control stormwater run-off to their combined sewer. Leveraging funds available for Low Impact Development projects allowed the GRDC to make needed site improvements while providing amenity for the co-workers.

Rain barrels, porous pavers and bioretention areas provided the functional yet beautiful backdrop for the GRDC's desired amenities. These amenities included public art, bike parking, a shaded outdoor work space and site security.

Location:
Detroit, MI

Client:
Grandmont Rosedale
Development Corporation

Scope:
Site Analysis
Concept Design
Construction Drawings

Completion Date:
2016
