INDEPENDENT AUDITORS' REPORT

Board of Directors
Trinity County Water Works District #1
Hayfork, California

Report On the Financial Statements

I have audited the accompanying consolidated financial statements of Trinity County Water Works District #1 (TCWW#1), which comprise the consolidated statement of financial position as of June 30, 2017, and the related consolidated statements of activities and changes in net assets and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these consolidated financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the TCWW#1's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the TCWW#1's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of

P.O. Box 994508, California 96099-4508 * (530) 246-AUDIT (2834) * FAX (530) 244-0331

accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TCWW#1's as of June 30, 2017, and the changes in their net position and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

In June 2012, GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions — an amendment of GASB No. 27. The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. The Statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred as to trusts) that meet certain criteria. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not covered by the scope of this Statement.

The District has terminated its contact with PERS effective for the 2016-17 fiscal year. A final determination of the District's outstanding liability will be made at that time and it is the District's intent to fully fund the balance at that time.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Management has elected to omit the Management Discussion and analysis.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued my report dated October 31, 2017 on my consideration of the TCWW#1's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering TCWW#1's internal control over financial reporting and compliance.

TRINITY COUNTY WATERWORKS DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

The financial statements of Trinity County Waterworks District No. 1 have been prepared in conformity with Accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Description of Reporting Entity

The Trinity County Waterworks District No. 1 (District) provides water and sewer as well as irrigation water service to customers in Hayfork, California.

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities.

Based upon the application of these criteria, there are no potential component units to be included in the District's reporting entity.

B. Implementation of Governmental Accounting Standards Board Statements

GASB Statement No. 40

At June 30, 2011, the District adopted the provisions of Governmental Accounting

Continued on the following page.

TRINITY COUNTY WATERWORKS DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (Continued)

B. Implementation of Governmental Accounting Standards Board Statements (Continued)

Standards Board (GASB) Statement 40, Deposits and Investment Risk Disclosures an amendment of GASB Statement No. 3. The Statement modifies the custodial credit risk disclosures required by Statement No. 3, Deposits with Financial institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements and addresses deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk.

Accordingly, the cash and investments disclosure has been revised to conform to the provisions of GASB Statement No. 40.

C. Basis of Presentation and Accounting

The accompanying basic financial statements of the District are prepared on the accrual basis method of accounting in accordance with generally accepted accounting principles as applicable to governmental units. Under this method, revenues are recognized when earned and expenses are recognized when incurred.

All activities of the District are accounted for within a single enterprise fund. Enterprise funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. *Nonoperating* revenues, such as subsidies and investment earning, result from non exchange transactions or ancillary activities.

Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. In accordance with GASB No. 33, *Accounting and Reporting for Non-exchange Transactions*, revenue from property taxes is available.

Continued on the following page.

**TRINITY COUNTY WATERWORKS DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (Continued)

C. Basis of Presentation and Accounting (Continued)

Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligible requirements have been satisfied and the resources are available.

When both restricted and unrestricted resources are available for use, it is the District's Policy to use restricted resources first, then unrestricted resources as they are needed.

D. Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the District considers all unrestricted highly liquid investments with an initial maturity of three months or less to be cash equivalents.

E. Allowance for Doubtful Accounts

The District's receivables consist mostly of special assessments due from tax payers and utility billing due from customers. The District considers accounts receivable to be fully collectible at year-end; accordingly, no allowance for doubtful accounts is required.

F. Capital Assets

Property and equipment is recorded at cost. Donated property and equipment is stated at the fair value at the date of donation and recorded as contributed capital. Depreciation is provided on the straight-line basis over the estimated useful lives of the assets as follows:

Structures and Improvements	10-45 Years
Vehicles and Equipment	3-10 Years

G. Inventory

The District uses the "consumption" method of accounting for inventory. Under the "consumption" method, inventory acquisitions are recorded in the inventory account initially, and charged as expenditures when used.

Continued on the following page.

**TRINITY COUNTY WATERWORKS DISTRICT NO. 1
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2017**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (Continued)

H. General Liability Insurance

The District is a member of the Special District Risk Management Authority (S.D.R.M.A.) under a Joint Powers Agreement. The Authority provides general liability and property, and errors and omissions insurance under a self-insurance program funding pool.

I. Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as liabilities of the District and are accrued when incurred.

Accumulated Employee sick leave benefits are not recognized as liabilities of the District since payment of such benefits is not probable. Therefore, sick leave benefits are recorded as expenditures in the period that sick leave is taken.

J. Property Taxes

The State of California (State) Constitution Article XIII A provides that the combined maximum property tax rate on any given property may not exceed one percent (1 %) of its assessed value unless an additional amount for general obligation debt has been approved by voters. Assessed value is calculated at 100% of market value as defined by Article XIII A and may be adjusted by no more than two percent (2%) per year unless the property is sold, transferred, or improved. The State Legislature has determined the method of distribution of receipts from a one percent (1%) tax levy among the counties, cities, school districts, and other districts.

Trinity County assesses, bills for, and collects property taxes as follows:

	<u>Secured</u>	<u>Unsecured</u>
Lien dates:	March 1	March 1
Levy dates	July 1	July 1
Due dates	50% on November 1 and 50% on March 1	July 1
Delinquent as of	December 10 (for November) and April 10 (for March)	August 31

The term "unsecured" refers to taxes on personal property other than real estate, land, and buildings. These taxes are secured by liens on the property being taxed.

Continued on the following page.

**TRINITY COUNTY WATERWORKS DISTRICT NO. 1
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2017**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (Continued)

J. Property Taxes (Continued)

Property taxes levied are recorded as revenue when received in the fiscal year of levy because of the adoption of the "alternate method of property tax distribution," known as the Teeter Plan, by the District and the County of Trinity (County). The Teeter Plan authorizes the Controller of the County to allocate 100% of the secured property taxes billed, but not yet paid. The County remits tax monies to the District in three installments, as follows:

55% remitted on December 15
 40% remitted on April 15
 5% remitted on June 15

K. Capitalization of Interest

Interest is capitalized on costs associated with the acquisition and construction of assets. The amount of interest capitalized is the total of all associated interest costs, less interest earned on the temporary investment of the proceeds of any tax-exempt borrowings.

L. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 CASH AND INVESTMENTS

The District maintains various cash and investment accounts with banks, the Trinity County Treasurer, and a safekeeping agent.

At June 30, 2017, total District cash and investments at fair value were as follows:

Government Funds

	Per Books	Per Bank
<i>Cash:</i>		
Cash on hand	\$ <u>13,980</u>	\$ <u>13,980</u>

Total restricted cash and investments	\$ <u>486,297</u>	\$ <u>492,740</u>

INVESTMENTS

The District’s investment policy does not define criteria for selecting acceptable financial institutions, brokers/dealers, or allowable investment types as defined by Government Code 53635.

At June 30, 2017, the District had the following investments:

	<u>Interest Rates</u>	<u>Maturities</u>	<u>Par</u>	<u>Cost</u>	<u>Fair Value</u>	<u>WAM (Years)</u>
Investments						
Cash in County Pooled Treasury	Variable	On Demand	\$ 14,514	\$ 14,514	\$ 14,514	-
Mutual Fund	Variable	On Demand	27,113	27,113	27,113	-
Local agency Investment Fund	1.67%-2.85%	On Demand	<u>302,917</u>	<u>302,917</u>	<u>302,917</u>	-
Total Investments in investment pool			<u>\$ 344,544</u>	<u>\$ 344,544</u>	<u>\$ 344,544</u>	<u>-</u>

Interest Rate Risk

The District’s investment policy does not define a method for limiting investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 2 CASH AND INVESTMENTS (Continued)

Credit Risk

The District’s investment policy does not define a method for limiting credit risk. State law and the County’s Investment Policy limit investments in commercial paper to the rating of A1 by Standards & Poor’s or P-1 by Moody’s Investors Service. State Law Limits Investors Service. The District has no investments in commercial paper or corporate bonds.

Concentration of Credit Risk

At June 30, 2017, in accordance with State law, the District did not have 5% or more of its net investment in commercial paper, corporate bonds or medium term notes of a single organization, nor did it have 10% or more of its net investment in any one money market mutual fund. Investments in obligations of the U.S. government, U.S. government agencies, or government-sponsored enterprises are exempt from these limitations.

The following is a summary of the credit quality distribution and concentration of credit risk by investment type as a percentage of the District’s investment pool’s fair value at June 30, 2017.

	<u>SAP</u>	<u>Moody’s</u>	<u>% of Portfolio</u>
Cash in county Pooled Treasury	Unrated	Unrated	6.99%
State Farm Mutual Fund	Unrated	Unrated	5.19%
Local Agency Investment Fund (LAIF)	Unrated	Unrated	87.82%
Total			<u>100.00%</u>

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At year end, the District’s investment pool and specific investments had no securities exposed to custodial credit risk.

Local Agency Investment Fund

The District maintains an investment in the State of California Local Agency Investment Fund (LAIF), managed by the State Treasurer. This fund is not registered with the Securities and Exchange Commission as an investment company, but is

Continued on the following page.

TRINITY COUNTY WATERWORKS DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 2 CASH AND INVESTMENTS (Continued)

required to invest according to California State Code. Participants in the pool include voluntary and involuntary participants, such as special districts and school districts for which there are legal provisions regarding their investments. The Local Investment Advisor Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute.

At June 30, 2017, the District's investment position in the State of California Local Agency Investment Fund (LAIF) was \$302,917, which approximates fair value and is the same as value of the pool shares. The total amount invested by all public agencies in LAIF on that day was \$64,846,169,000. Of that amount, 97.6% was invested in non-derivative financial products and 2.4% in structured notes and asset-backed securities.

At June 30, 2017 the difference between the cost and fair value of cash and investments was not material (fair value was 97.6% of carrying value). Therefore, an adjustment to fair value was not required. Fair value is based on information provided by the State for the Local Agency Investment Fund. Investments are liquid.

Trinity County Treasury Pool

The Trinity County Treasurer's Pool is not SEC-registered, but is invested in accordance with California State Government Code, and the Trinity County Treasurer's Investment Policy. California State Government Code requires the formation of an Investment Oversight Committee, which is charged with overseeing activity in the pool for compliance to policy and code requirements. To this end, the Oversight Committee reviews the monthly investment report prior to presentation to the Board of Supervisors and causes an audit of investments to occur annually.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 4 LONG-TERM DEBT (CONTINUED)

As of June 30, 2017, annual debt service requirements to maturity are as follows:

Fiscal Year June 30	Special Assessment		Notes Payable	
	Principal	Interest	Principal	Interest
2018	\$ 17,000	\$ 23,043	\$ 11,119	\$ 5,382
2019	17,500	22,297	12,566	5,085
2020	18,500	21,517	11,711	4,782
2021	19,500	20,702	12,005	4,486
2022	20,000	19,842	12,304	4,182
2023-2027	115,000	83,936	66,291	15,735
2028-2032	144,000	56,946	75,003	7,259
2033-2037	<u>168,566</u>	<u>19,400</u>	<u>19,834</u>	<u>92</u>
	<u>\$ 520,066</u>	<u>\$ 267,683</u>	<u>\$ 220,833</u>	<u>\$ 47,003</u>

Long-term liabilities at June 30, 2017, consisted of the following:

	Date of Issue	Date of Maturity	Interest Rate	Annual Principal Installments	Original Issue Amount	Outstanding June 30, 2017
Note payable - Davis Grunsky	1999	2037	2.50%	\$7,975 - \$16,329	\$ 482,000	\$ 220,833
Special Assessment Debt						
Waterworks District #1 sewer system construction	1997-2000	2039	4.5%	\$9,000-\$41,066	<u>1,103,750</u>	<u>520,066</u>
Total Business - Type Activities					<u>\$ 1,585,750</u>	<u>\$ 740,899</u>

Note Payable

The Davis-Grunsky loan, of which the original amount was \$482,000, is payable in annual principal installments due January 1 of each year. The current interest rate is 2.5% and is payable July 1 and January 1 of each year. An accumulated deferred interest is also payable at \$2,164 per year, due January 1 of each year.

Special Assessment Debt and Sewer System Construction

On August 13, 1997, the voters in the District approved a measure to borrow \$1,200,000 from the Rural Utilities Service (RUS) for the construction of a sewer collection and treatment system for the residents of the District. This loan is to be

Special Assessment Debt and Sewer System Construction (Continued)

repaid out of annual property tax assessments. In August 2000, the District was granted a Community Block Service Grant for \$500,000 to pay off the assessments on behalf of qualified low-income households.

NOTE 5 DEFERRED COMPENSATION PLAN

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the District (without being restricted to the provisions of benefits under the plan), subject only to the District's general creditors.

Participants' rights under the plan are equal to those of general creditors of the district in an amount equal to the fair market value of the deferred account for each participant.

At June 30, 2017, total assets in the plan amounted to \$16,063. It is the opinion of the District, that the District has no liability for losses under the plan, but does have the duty of due care that would be required of an ordinary prudent investor. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

NOTE 6 PENSION PLAN

A. Plan Description

The District's sole employee, as well as current and future retirees are eligible to participate in pension plans offered by California Public Employees Retirement System (CALPERS) a cost sharing multiple employer defined benefit pension plan which acts as a common investment and administrative agent for its participating member

Continued on the following page.

TRINITY COUNTY WATERWORKS DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 6 PENSION PLAN (Continued)

employers. CALPERS provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. The District participated in the Miscellaneous Employee Plan. Benefit provisions under the Plan are established by State statute and District resolution. Benefits are based on years of credited service, equal to one year of full time employment. Funding contributions for the Plans are determined on an actuarial basis as of June 30 of each year. The District must contribute the amounts determined by CalPERS. Effective September 30, 2017, the District has withdrawn from CalPERS. The District requested a Termination Valuation from CalPERS and as described in the following paragraphs, the net pension liability is based upon that amount. The District continues its negotiations with CalPERS in order to determine its ultimate liability. The negotiations are further explained in the “Contingent Liability” footnote that follows.

NOTE 7 CONTINGENT LIABILITY

As stated in the previous Note, the District withdrew from CalPERS effective September 30th, 2017. That time CalPERS estimated the District’s termination liability to be approximately \$487,000. Subsequently the figure was recalculated and increased to the \$1,534,409 currently showing on the balance sheet. No adjustment has been made in the current year to that amount. Several options are currently being discussed with CalPERS regarding present and future benefits, including foregoing and additional payments and reducing the available benefit payments to current and future retirees. The District has entered negotiations with those employees to determine if another method of payment can be arrived at that will offset the proposed reduction in the PERs benefit. At this time the nature of those payments and the nature of that agreement is undetermined. The District is currently seeking an attorney to assist them in exploring and drafting such an agreement and it will be determined at that time how to quantify and classify that liability. It is assumed, at this time, that it will fall under GASB 45 as an “Other Post Employment Benefit”. The District has made the determination that the liability currently on the books (\$1,534,409) approximates the amount that will be required to fund the new arrangement, should one be crafted, and therefore the amount remains on the books. After a new agreement is arrived at, if one is arrived at, an actuarial determination will be made to determine the actual amount.

NOTE 8 NET ASSETS/FUND BALANCES

Beginning with fiscal year 2010-11, the District implemented GASB Statement 54

Continued on the following page.

TRINITY COUNTY WATERWORKS DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 8 NET ASSETS/FUND BALANCES (Continued)

“Fund Balance Reporting and Governmental Fund Type Definitions”. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable fund balance-amounts in fund balance that cannot be spent because they are either not in spendable form (such as prepaids and inventory) or legally/contractually are required to be maintained intact;

Restricted fund balance-resources that are constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through externally enforceable legal restrictions (cannot be spent due to their form).

Committed fund balance-amounts are constrained to specific purposes by action of the District itself, using its highest level of decision-making authority; Removal or modification of the restrictions on the use of these amounts can only be accomplished if the District takes the same highest level action to remove or change the constraint;

Assigned fund balance-amounts the District intends to use for a specific purpose; intent can be expressed by the District, a District created committee, or an official designated by the District to which it delegates the authority; Informal commitments (no formal action by the District).

Unassigned fund balance-Resources in the fund balance that cannot be classified into any of the other categories. These amounts that are available for any purpose; positive amounts are reported only in the general fund.

The District establishes fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the District.

NOTE 9 CONTRACT AND PROFESSIONAL SERVICES

During the year the district outsourced its operations and maintenance to a private contractor. The contract calls for the contractor to provide all operations and maintenance services that were previously provided by District staff as well as any

Continued on the following page.

TRINITY COUNTY WATERWORKS DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 9 CONTRACT AND PROFESSIONAL SERVICES (Continued)

additional services the Board may deem necessary during the term of the contract. The contractor is payable in monthly installments of \$18,536 and extends from July 1, 2016 to June 30, 2017. It is the determination of management that the contract will result in a significant cost savings to the District. The contract is reflected in the financial statements by a significant decrease in payroll and payroll related expenses as well as other vehicle related expenses. The corresponding increase in professional services reflects the contract payments plus other incidental expenses.

NOTE 10 SUBSEQUENT EVENTS

These financial statements consider subsequent events through August 31, 2017 the date the financial statements were made available to be issued.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of Directors
Trinity County Water Works District #1
Hayfork, CA

We have audited the basic financial statements of the Trinity County Water Works District #1 as of and for the year ended June 30, 2017, and have issued our report thereon dated October 31, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Trinity County Water Works District #1 is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing my audit, I considered the District's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Trinity County Water Works District #1's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of Trinity County Water Works District #1's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of Commission's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies that are less severe than a material weakness, yet important enough to be brought to the attention of those charged with governance.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Trinity County Water Works District #1's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Intended Purpose

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

This report is intended solely for the information and use of the County Board of Supervisors, the County Commission, the State Commission, the State Controller's Office, federal agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Donald R. Reynolds,
Certified Public Accountant
October 31, 2017
