

ECLIPTIC TIME-CLOCK OF THE TRIBULATION

CORRELATING WITH THE ECLIPTIC PATTERNS FROM 2012-2020

The purpose of this illustration is to show a possible association of ecliptic patterns to the speculative stages of the Biblical Tribulation Period spoken from the book of Daniel and Revelation. This will be a fusion of astronomical facts with eschatological suppositions that are purely hypothetical. It appears that the ecliptic pattern functions as a sequence of time or a 'time-clock' that is directly a function of phi. Several conjugation of the eclipses will be analyzed in reference to phi taken from several key ecliptic dates. Perhaps given such day count clues from Daniel and Revelation, the 'Time of Jacob's Troubles' as a part or a whole of the Tribulation Make-up could be ascertained by such a 'time-clock'. Scripture gives us clues as to some attributes of the Tribulation period. This illustration suggests that the synchronization of prophetic time converges in the sequential Jewish years of 5776-5777-5778 as a potential countdown to the start of Daniel's 70th Week of Years or the last Sabbatical Year Cycle in this Last Generation per the Olive Tree metaphor of Israel's birth in 1948. In 2017-18, several key time markers are completed. There is the 50th year Jubilee of Jerusalem's liberation from the Muslims in 1967. There is the 70th anniversary in 2018 of Israel's 'birthing'. This mirrors the 70th year of Israel's return from Babylonian Captivity and the destruction of the 2nd Temple in the 70th year AD. Coincidentally, in 2018, it will be 1948 years from 70 AD. Thus the Triad of 2018 that has the Central Blood Moon converges on these 2 most important and prophetic time pieces for the restoration of Israel and the end of the Church Age.

ECLIPTIC TIME

The solar and lunar eclipses are placed on a timeline from 2012 to 2020. Only the TETRAD and TRIAD Total Blood Moons will be shown to highlight the association of time intervals between the solar and lunar eclipses. The series of an approximate ϕ proportion appears to be extrapolated from the beginning of the 2014-15 Tetrad to the beginning of the 2018 Triad. Possibly this correlation could be a clue to determine when possibly the Tribulation could begin. The 3rd Temple may begin contraction sometime during or after the Triad. It is speculated that it would 18 MONTHS for the purification and completion. This would take the count after the Triad of the Central Blood Moon of 2018 that had its corresponding pair in 2011.

End of a Sabbatical Year Cycle?

2011—2017

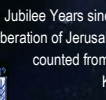

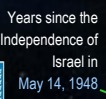

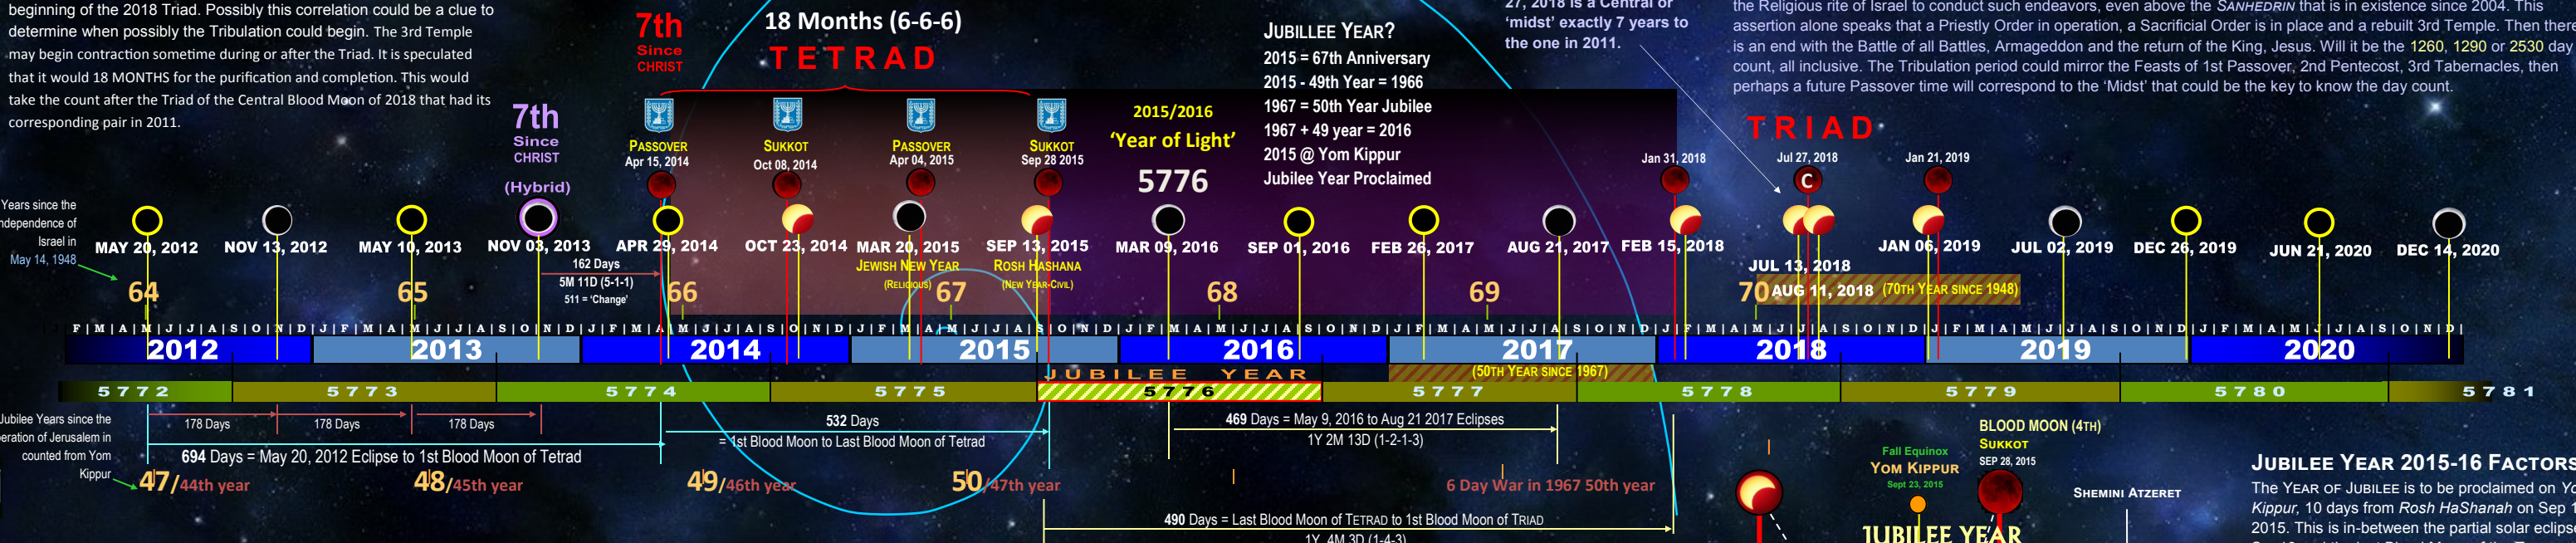

70th Year
50th Year

THE BEGINNING ?

Start of Tribulation? Dedication of 3rd Temple?

2018? BEGINNING FROM WHAT COUNT?

A clue is given in Scripture that regardless of the day-count, a 'Beginning' of the Tribulation period will commence with the 'Confirming of the Covenant' with the 'Many'. There is also a 'Midst' or middle of a time period associated with a command to have the Daily Sacrifices cease. A political and religious Authority that -that being the AntiChrist supersedes the Religious rite of Israel to conduct such endeavors, even above the SANHEDRIN that is in existence since 2004. This assertion alone speaks that a Priestly Order in operation, a Sacrificial Order is in place and a rebuilt 3rd Temple. Then there is an end with the Battle of all Battles, Armageddon and the return of the King, Jesus. Will it be the 1260, 1290 or 2530 day count, all inclusive. The Tribulation period could mirror the Feasts of 1st Passover, 2nd Pentecost, 3rd Tabernacles, then perhaps a future Passover time will correspond to the 'Midst' that could be the key to know the day count.

THE TETRAD IN RELATION TO ϕ

One prominent reference point that is highlighted above for these illustrations will be that of the commencement of the TETRAD. Starting from the Apr 15, 2014 1st Annular Eclipse within the Tetrad, when you factor in the ϕ proportions spanning the entire duration of the TETRAD to finish on Sep 28, 2015, you end up with the start of the 2nd and last TRIAD of Blood Moons that bracket the TETRAD, 490 days later on Jan 31, 2018. The Apr 29, 2014 Annular Eclipse is precisely in ϕ ratio to the Mar 20, 2015 Total Eclipse and the 4th and last Blood Moon of the TETRAD on Sep 28, 2015. The 1st TRIAD started in Dec 2010. This same principle of incorporating the ϕ proportions will be factored throughout the timeline from 2012 to 2020 to see if there are corresponding dates and day-counts that could be significant. Perhaps lend a clue as to what count and from where the 1260 and/or 1290 prophetic count could be referenced from to see when the Tribulation would start.

TIME OF JACOB'S TROUBLES

JACOB'S TROUBLES refers to an intense period yet in the future of persecution, death and destruction for the Jewish people right before the Messiah is promised to come to deliver them and rule. It is a time of 'wrath', of YHVH's judgment on the unbelieving world and His discipline of Israel during this time. It is used as a metaphor to picture Israel going through the pains of childbirth -a time of fear and pain. It is a time of purification and testing/discipline as YHVH will use the surrounding nations in the End Times to do this. YHVH says He will destroy the Nations who will come upon Israel; notably the yet to be fulfilled Psalm 83 War, Isaiah 17 Event, and the Gog-Magog Invasion. Jesus similarly described this 'TRIBULATION' period in Matt 24:6-8, stating that the appearance of false Christ's, wars and rumors of wars, famines, and earthquakes were to be 'the beginning of birth pains.' Perhaps the Tetrad is the indicator of such a time. If any indication of what will happen to Israel from prior Tetrads, it will not be good as Blood Moons are a bad 'omen' for the Jewish nation.

SOLAR

- 1. TOTAL
- 2. ANNULAR
- 3. PARTIAL
- 4. HYBRID

LUNAR

- 1. TOTAL (BLOOD MOON)

JUBILEE YEAR 2015-16 FACTORS

The YEAR OF JUBILEE is to be proclaimed on Yom Kippur, 10 days from Rosh HaShanah on Sep 13, 2015. This is in-between the partial solar eclipse of Sep 13 and the last Blood Moon of the TETRAD on Sep 28, 2015. Although there is an alternative count that suggests 2017-18 is the actual Jubilee Year.

1. Jubilee Year is in-between 2 Eclipses.
2. Jubilee Year is on Yom Kippur, Sep 23, 2015.
3. Sep 13, 2015 Partial Eclipse & Sep 28, 2015 last Blood Moon of Tetrad.
4. Jubilee Year on the Fall Equinox Sept 23, 2015.
5. Jubilee Year is in the Jewish Year of 5776, a factor of 1776 'Year of Light.'
6. It is the 240th Year since 1776.
7. From Partial Eclipse on Sep 13 to 4th Blood Moon of Tetrad is nearly in ϕ ratio to Yom Kippur on the 22nd, eve of 23rd.
