Quotes:

“[Zachary] balances academic accomplishments with athletic endeavors and never seems to meet a stranger. He has confidence without arrogance and a mind that's always questioning..... he is often the leader but can also easily change gears when someone else proposes a different and perhaps more effective strategy. He's outgoing and honest, and will be an asset not just to the institution of higher learning that he attends, but to any community of which he is a part.” **Debra Akers** - Secondary Mathematics Instructor

“My future has been greatly impacted in a positive way by your act of thoughtfulness as the stress of my loans will have been relieved as I begin my career. This will help me live a more successful and promising life which is due to your giving mindset and your generous gift that I will not be soon to forget. I highly appreciate you giving me the opportunity to apply for and accept this scholarship, thank you again for what you do.” **Zachary**
