

## **PROHIBITION ON HORSE SLAUGHTER IN THE U.S. IS EXTENDED**

---

Congress has once again denied the funds to conduct federal inspections of horse slaughter facilities thereby preventing horse slaughter plants from operating in the U. S in 2015. The continuing prohibition on horse slaughter in the U. S. combined with the ruling from the European Commission effectively prevents over 100,000 horses from being inhumanely slaughtered both here in the U. S. and in Mexico.
