

Dive Adventures

Deep Diver Specialty

Who should take this course?

The lure of the deep. There's something exciting and mysterious about exploring deeper dive sites while scuba diving. Sometimes it's a wreck that attracts you below 60 feet, and on wall dives it may be a giant fan or sponge. Whatever it is, to scuba dive with confidence at depths down to 130 feet, you should take the PADI Deep Diver Specialty course.

What will you learn?

Your training starts by reviewing reasons for deep diving and how important it is to know your personal limits. During four deep dives with your instructor, you'll go over:

- Specialized deep diving equipment.
- Techniques for diving in depth range of 60-100 feet.
- Deep dive planning, buddy contact procedures and buoyancy control.
- Managing your gas supply, dealing with gas narcosis and safety considerations.

You may be able to get college credit for the Deep Diver course – ask your instructor.

Also, the first dive of this PADI Specialty Diver course may credit as an Adventure Dive toward your Advanced Open Water Diver certification – ask your instructor about earning credit.

Prerequisites

Be 15 years or older and Advanced Open Water Diver or above.

How can you start learning now?

Get a PADI *Deep Diver Crew-Pak* that includes your manual and video by visiting your local PADI Dive Center and Resort to enroll in the course. Read the manual and watch the video before meeting with your PADI Instructor to plan your deep diving adventures.

Equipment Requirements

You'll need a dive computer along with the rest of your basic scuba equipment. A dive light and slate are also recommended. Your PADI Instructor or local dive center staff may suggest other gear appropriate for local deep diving.

Duration

Four dives over two days.

Fees

\$250.00

Student pays for dives and equipment fees.
