

The Tale of Make Reservations

Where do I begin? My name is Make Reservations and I was born in Kentucky on March 30, 2007. My owners call me "Studly" because, well, look at me!

Tapit is my dad, the most valuable stallion in the United States. Need I say more?

My mom's name is Formal Reception. Her dad is none other than the great Unbridled. He's an award winning, graded stakes winning, multi-millionaire! Wow!

Great things were expected of me so I needed to train hard and race my heart out!

I had a pretty normal life growing up to be a racehorse. The excitement I had when the day finally came to run my first race at Aqueduct was overwhelming! On April 11, 2011, I came out of the gate fully prepared to give it my all! I came around the last turn into the stretch and saw my opportunity to take the lead. That's when it happened. I broke my leg! I managed to finish 3rd but that was it. My career as a racehorse was over! They managed to fix my leg with pins but I was crushed. I hope my parents weren't too disappointed in me.

The following year, I entered the next stage of my life as a stallion. It took a while for me to get my first date, adding salt to my wound!

I did finally meet someone in 2016 - the girl next door! After that, word got around and the ladies just started lining up to be with me!

My first crop was born in 2017 and I must say, they are quite a bunch of lookers - and large at birth! I see great racing in their future because their mama's hail from outstanding bloodlines and I am after all, me. The son of Tapit and grandson of Unbridled! The quality of my genes alone set me up to be a great stallion!

I live at Majestic View Farm in New York where I am pampered every day. My owners visit me every week and bring me apples, pears, carrots and candy. The lady comes in my stall and gives me lots of hugs and kisses too - who can blame her!

That is my life in a nutshell. I look forward to many more children and hope you will follow us to see where they will go. If there are any single mares out there, I am good looking and available! They don't call me "Studly" for nothing.

To be continued through my offspring
